

# CUSTOM GRADE HANDGUN SEATER DIES - 32 S&W, 32 H&R MAG BULLET SEATING DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

Hornady's Custom Grade New Dimension dies are created from select steel that's heat-treated to ensure the durability needed for a lifetime of reloading. Hornady guarantees they'll never wear out or break under normal use. All dies include the popular double-flat Hornady die lock rings installed and a custom plastic box. Hornady dies are grouped in three series for pricing - die construction and quality is equal in each series. Custom Grade Seater dies include a sliding alignment sleeve which holds the bullet, case mouth, and seater stem in alignment before the bullet enters the case mouth. Seater dies include a built-in crimp ring which can be used or raised for no crimp. All dies come with the popular double-flat Hornady die lock rings installed and a custom plastic die box.

# **CUSTOM GRADE HANDGUN SEATER DIES 32 S&W, 32 H&R MAG BULLET SEATING DIE**

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the CUSTOM GRADE HANDGUN SEATER DIES from Hornady. This guide provides essential safety instructions and guidelines to ensure the safe use of your bullet seating die. Please read this document carefully to understand how to use and maintain the product safely.

### **General Safety Guidelines**

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including eye protection, when reloading ammunition.
- Keep the dies and all reloading components out of reach of children and unauthorized individuals.
- Regularly inspect your equipment for wear and damage. Do not use any damaged components.
- Follow all local laws and regulations regarding ammunition reloading and storage.
- Report any unsafe products or accidents to the relevant authorities.

### **Specific Safety Precautions for Use**

- Always ensure that the die is securely mounted in the reloading press before use.
- Verify that the correct bullet and cartridge are being used for the die.
- Avoid overtightening the die, which may lead to damage or malfunction.
- Use the builtin crimp ring only if necessary, and ensure it is set correctly to avoid excessive crimping.
- Do not attempt to modify the die or its components in any way.
- Always work in a wellventilated area to avoid inhalation of dust or fumes.

### **Instructions for Installation and Usage**

#### **1. Installation:**

- Securely attach the die to your reloading press using the included doubleflat Hornady die lock rings.
- Ensure that the die is properly aligned with the press for optimal performance.

#### **2. Usage:**

- Place the bullet into the alignment sleeve of the die.
- Insert the case into the die, ensuring that the case mouth is aligned with the bullet.
- Slowly raise the press handle to seat the bullet into the case.
- If using the crimp feature, adjust the crimp ring as needed before seating the bullet.
- After seating, remove the completed round from the press and inspect it for proper seating depth and crimp.

#### **3. Maintenance:**

- Clean the die regularly to remove any debris or residue.
- Store the die in the provided plastic box when not in use to protect it from damage.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the die becomes damaged beyond repair, dispose of it in a manner that prevents unauthorized use.
- Do not dispose of any reloading components in regular household waste. Follow local regulations for hazardous materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the CUSTOM GRADE HANDGUN SEATER DIES, please consult the Hornady website or your local dealer for support and additional information.

Thank you for prioritizing safety while reloading. Enjoy your reloading experience with Hornady products!
