

NON-THREADED GEN 5 G17 BARRELS - AGENCY ARMS NON-THREADED BARREL, FLUTED, G17 GEN 5, SS

[Handgun Parts](#) > [Barrel Parts](#) > [Barrels](#)

Increases Barrel Life and Performance in Your Glock Gen 5

You've seen aftermarket barrels for earlier-generation Glock pistols, but Agency Arms one of the first companies out of the gate with aftermarket barrels designed for the latest Gen 5 models of Glock handguns. In particular, the Agency Arms Non-Threaded Mid Line Barrel for the Gen 5 G17 is built to enhance performance and service life over the OEM barrel. Each Agency Arms Non-Threaded Mid Line Barrel is machined from 416R stainless steel and is rifled with the pulled-broach method, producing a twist rate of 1:10 inches that stabilizes all of today's 9mm ammunition. The production process behind this barrel ensures that this critical component withstands corrosion and wear better than factory-made barrels, increasing the use life of your go-to handgun. Each Agency Arms Non-Threaded Mid Line Barrel can be had in black-nitride, TiN and stainless-steel finishes and comes with a unique exterior complete with machined gear flutes. The G17 barrel measures 4.49 inches in overall length.

Safety Instruction Guide for NONTHREADED GEN 5 G17 BARRELS AGENCY ARMS

Introduction

Thank you for choosing the Agency Arms NonThreaded Mid Line Barrel for your Gen 5 G17. This guide provides essential safety instructions and usage guidelines to ensure your product is used safely and effectively. Please read this document thoroughly before installation and use.

General Safety Guidelines

- Ensure the barrel is compatible with your specific Glock model before installation.
- Always handle firearms with care and follow standard safety practices.
- Keep the barrel and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the barrel for any signs of wear or damage.
- Use only highquality 9mm Luger ammunition to ensure optimal performance.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the barrel in any way.
- Ensure that the firearm is unloaded before installing or removing the barrel.
- Always wear appropriate eye protection when handling firearms.
- Avoid using the barrel in adverse weather conditions that may affect performance.
- If you notice any unusual sounds or performance issues, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. Installation Steps:

- Ensure the firearm is completely unloaded.
- Remove the slide from the firearm according to the manufacturer's instructions.
- Carefully remove the OEM barrel from the slide.
- Insert the Agency Arms NonThreaded Mid Line Barrel into the slide, ensuring it is seated properly.
- Reattach the slide to the firearm, ensuring all components are secure.
- Conduct a function check to ensure proper operation.

2. Usage Tips:

- Familiarize yourself with the new barrel by practicing with it in a controlled environment.
- Monitor the performance of the barrel during use and address any issues immediately.
- Clean the barrel regularly to maintain optimal performance and longevity.

Disposal Instructions

- Dispose of the barrel according to local regulations regarding firearm components.
- Do not throw the barrel in regular household waste.
- Contact local waste management for guidance on safe disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Agency Arms NonThreaded Mid Line Barrel, please refer to the contact information provided by your retailer or visit the manufacturer's website for more details.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your Agency Arms NonThreaded Mid Line Barrel for the Gen 5 G17. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
