

# **SINGLE POINT BUNGEE SLINGS - PHASE 5 TACTICAL SINGLE POINT BUNGEE SLING W/ QD ATTACHMENT POINT BLACK**

[Shooting Accessories](#) > [Slings & Sling Swivels](#) > [Slings](#)

Phase 5's Single-Point Bungee Sling is designed to be simple, rugged, and reliable - just what a tactical sling ought to be. It holds the rifle close to your body, enabling fast shouldering and preventing the gun from flopping around and knocking into you as you walk. It has a heavy-duty steel QD swivel OR snap clip attached to the equally heavy-duty elasticized "bungee" portion of the sling. The bungee shock cords mate to the reinforced nylon webbing of the main sling body via a pair of reinforced steel hog-ring clips. The single-point bungee sling has a simple slide buckle for making fast length adjustments that stay in place, where you set them, until you want to change the length. Three MOLLE loops on the sling strap let you attach a knife sheath, chemical-light, flashlight, multi-tool - or whatever else you may need to reach quickly. Extra-strength nylon webbing Heavy-duty STEEL hardware with anti-corrosion Manganese Phosphate finish Extra-thick elastic bungee cords MOLLE attachment points for small accessories Heavy-duty shrink tubing at hardware attachment points Available with QD pushbutton swivel OR H&K-style snap clip The bottom line: a tactical sling is only as strong as its weakest point, and the Phase 5 Single-Point Bungee Sling has no weak points.

## **Attributes**

- Name: [PHASE 5 TACTICAL SINGLE POINT BUNGEE SLING W/ QD ATTACHMENT POINT BLACK](#)

# **Safety Instruction Guide for SINGLE POINT BUNGEE SLINGS PHASE 5 TACTICAL SINGLE POINT BUNGEE SLING W/ QD ATTACHMENT POINT BLACK**

## **Introduction**

Thank you for choosing the Phase 5 SinglePoint Bungee Sling. This tactical sling is designed for ease of use, durability, and reliability. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## **General Safety Guidelines**

- Ensure that the sling is used only for its intended purpose, which is to securely carry firearms.
- Inspect the sling before each use for any signs of damage or wear. Do not use if damaged.
- Keep the sling out of reach of children and unauthorized users.
- Always follow local laws and regulations regarding the use of firearms and accessories.
- Be aware of your surroundings when using the sling to avoid accidents or injuries.

## **Specific Safety Precautions for Use**

- Always ensure that the firearm is unloaded before attaching or detaching the sling.
- When using the sling, maintain a firm grip on the firearm at all times.
- Avoid using the sling in wet or slippery conditions, as this may affect grip and control.
- Do not exceed the recommended load capacity of the sling.
- If using the sling in a tactical situation, ensure that all components are securely fastened and functioning properly.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Identify the attachment point on your firearm.
- If using the QD swivel, align the swivel with the attachment point and push it into place until it clicks securely.
- If using the H&Kstyle snap clip, open the clip and attach it to the designated point on the firearm, ensuring it is securely closed.

### **2. Adjusting Length:**

- To adjust the length of the sling, locate the slide buckle on the sling strap.
- Pull the strap through the buckle to shorten or lengthen the sling as needed.
- Ensure that the adjustment is secure and does not slip during use.

### **3. Using the Sling:**

- Position the sling over your shoulder, allowing the firearm to rest against your body.
- Adjust the sling length for comfort and accessibility.
- When transitioning to a shooting position, ensure that the sling does not obstruct your movement.

## Disposal Instructions

- Dispose of the sling in accordance with local regulations.
- If the sling is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the sling in regular household waste if it contains metal components.

## Contact Information for Further Support

For any questions or concerns regarding the Phase 5 SinglePoint Bungee Sling, please refer to the manufacturer's website or customer support channels for assistance.

Thank you for prioritizing safety while using the Phase 5 SinglePoint Bungee Sling. Your adherence to these guidelines helps ensure a secure and effective experience.
