Military Designed Hearing Protection-360° Advanced Situational Awareness!

OTTO ENGINEERING NOISEBARRIER RANGE EAR MUFFS The NoizeBarrier® Range SA was originally designed for military use and is the premier headset for true firearm professionals. Whether you are in an outdoor/indoor range or a tactical shoot house, the NoizeBarrier® Range SA offers top of the line experience and hearing protection. The tactical communication headset features 360° advanced situational awareness, and industry-leading hearing protection for any live-fire training activity. OTTO has collaborated with tactical operators to design and engineer a headset that meets the demands of today's modern firearms user. The results are crystal clear audio and precise situational awareness, delivering an unparalleled soundscape experience for maximum safety and performance. Volume-adjustable situational awareness microphones provide accurate sound localization to enhance user experience Noise amplification allows you to intensify your hearing; heightens barely audible low sounds with the integrated microphone system so that you can better hear "important noises" while tactically moving or at the range The active volume feature allows you to reduce extra loud noises to a safe level with no clipping or shut down of situational awareness when impulse noises are present Noise reduction rating of 23dB Ear seals snap in for easy field replacement, without the need to use tools Talk time of 72 hours with 2 AAA. Auto idle shutdown will not degrade with depleting batteries Available colors: Flat Dark Earth and Olive Drab Green The NoizeBarrier® Range SA combines industry-leading hearing protection and extreme comfort. This headset was designed for long term use and can be worn all day without discomfort. The shape of the ear-cups was designed with the best ergonomic principles in mind, allowing for a smooth shouldering of your firearm, and it fits well with safety glasses and other equipment.

NOISEBARRIER RANGE EAR MUFFS Safety Instruction Guide

Introduction

Thank you for choosing the NOISEBARRIER RANGE EAR MUFFS by OTTO Engineering. Designed for firearm professionals, these ear muffs provide exceptional hearing protection and situational awareness. This guide provides essential safety instructions to ensure the safe use of your product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- **Product Safety:** Ensure safe use of the ear muffs by following all instructions. These ear muffs are designed to mitigate noise exposure but do not eliminate it entirely.
- **Enhanced Recalls:** Stay informed about any product recalls. If you receive a recall notice, follow the instructions provided to return or replace the product.
- **Online Shopping:** If purchased online, ensure that the retailer meets safety requirements and provides clear product information.
- **Special Consumer Focus:** These ear muffs are not intended for children. Keep out of reach of minors to prevent misuse.
- **EU Contact Point:** For safety inquiries, refer to the product packaging or the retailer for contact information.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Hearing Protection:** The ear muffs have a Noise Reduction Rating (NRR) of 23 dB. Always wear them when exposed to loud noises.
- **Volume Control:** Adjust the volume of the situational awareness microphones to a comfortable level. Do not exceed safe listening levels.
- **Microphone Use:** Use the integrated microphone system responsibly. Avoid amplifying sounds that may distract you from your surroundings.
- **Maintenance:** Regularly inspect the ear seals for wear and tear. Replace them as needed to maintain effectiveness.
- **Battery Safety:** Use only 2 AAA batteries as specified. Do not mix old and new batteries. Remove batteries if the ear muffs will not be used for an extended period.

Instructions for Installation and Usage

1. Installation:

- Ensure that the ear muffs are clean and free from debris.
- Snap the ear seals into place securely.
- Insert 2 AAA batteries into the designated compartment, ensuring correct polarity.

2. Usage:

- Place the ear muffs over your ears, ensuring a snug fit for optimal noise reduction.
- Adjust the headband for comfort. The ear cups should fully cover your ears.
- Turn on the device and adjust the situational awareness volume to your preference.
- Conduct a sound check to ensure that the microphones are functioning properly.

3. During Use:

- Remain aware of your surroundings. Use the situational awareness feature to detect important sounds.
- If you experience discomfort or a change in sound quality, remove the ear muffs and inspect for issues.

Disposal Instructions

- Dispose of the ear muffs and any electronic components in accordance with local regulations.
- Do not dispose of batteries in regular waste. Follow local guidelines for battery disposal or recycling.
- Consider donating the ear muffs if they are still in good condition and no longer needed.

Contact Information for Further Support

For any questions or concerns regarding the NOISEBARRIER RANGE EAR MUFFS, please refer to the retailer or manufacturer contact information provided on the product packaging.

By following these guidelines, you can ensure safe and effective use of your NOISEBARRIER RANGE EAR MUFFS. Thank you for prioritizing safety and performance with OTTO Engineering products.
