

DAKA MAGNETIC FIELD TRAYS - MAGPUL LARGE MAGNETIC FIELD TRAY BLACK

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Machinist Accessories](#)

Working on firearms and other mechanical gear can be a nerve-racking task, especially when on the range or out in the field. Losing small parts such as your firing retaining pin or bolt cam pin will render your rifle inoperable until those parts are replaced. To solve these problems, Magpul has designed the DAKA Field Tray. Equipped with a magnetic working surface, the DAKA Field Tray keeps your small parts organized and in one location. Crafted from their durable DAKA material, our Field Trays have the durability, flexibility, and strength that can withstand even the most extreme conditions. By simply snapping the four corners of the flat tray together, you create a walled, contained workspace that keeps your items in one enclosed area. The inside of the Field Tray sheds dirt, oil, and debris for hard use. A strong magnet located under the Magpul icon retains small metallic items such as springs, bolts, pins and screws, ensuring that you won't lose anything important to the job at hand. When not in use, the Field Tray can be un-snapped for flat storage. It's perfect for gun cases, backpacks, and range bags. Overall dimensions Flat: 11.50" x 7.50" Tray: 9.00" x 5.00" Available in Black and Flat Dark Earth

DAKA Magnetic Field Tray Safety Instructions

Introduction

Thank you for choosing the DAKA Magnetic Field Tray by Magpul. This product is designed to provide a secure and organized workspace for handling small parts related to firearms and mechanical gear. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the DAKA Magnetic Field Tray is used in a clean, dry environment.
- Keep the tray out of reach of children and pets to prevent accidents.
- Regularly inspect the tray for any signs of damage or wear. Do not use if damaged.
- Avoid using the tray with nonmetallic items that may not adhere to the magnetic surface.
- Always keep the tray away from strong magnetic fields or electronic devices that may be affected by magnets.

Specific Safety Precautions for Use

- When using the tray, ensure that it is placed on a stable surface to prevent it from tipping over.
- Be cautious when handling small metallic items, such as springs and screws, to avoid injury.
- Do not overload the tray with excessive weight as it may compromise its structure and magnetic strength.
- When snapping the corners of the tray together, ensure that they are securely fastened to prevent accidental disassembly.
- Avoid placing the tray in extreme temperatures or direct sunlight for prolonged periods, as this may affect the durability of the material.

Instructions for Installation and Usage

1. Setting Up the Tray:

- Unfold the flat tray and snap the four corners together to create a walled workspace.
- Ensure that each corner is securely fastened.

2. Using the Magnetic Surface:

- Place small metallic items on the magnetic surface to keep them organized and prevent loss.
- Ensure that the items are securely held by the magnet before moving the tray.

3. Cleaning and Maintenance:

- Wipe the surface of the tray with a damp cloth to remove dirt, oil, and debris.
- Avoid using harsh chemicals or abrasive materials that may damage the tray.

4. Storage:

- When not in use, unsnap the corners of the tray to lay it flat for easy storage.
- Store the tray in a cool, dry place away from direct sunlight.

Disposal Instructions

- Dispose of the DAKA Magnetic Field Tray in accordance with local waste disposal regulations.
- If the tray is damaged beyond repair, consider recycling the materials where possible.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the DAKA Magnetic Field Tray, please refer to the manufacturer's contact information provided with your purchase.

By following these safety instructions, you can ensure a safe and effective experience with your DAKA Magnetic Field Tray. Thank you for your attention to these important guidelines.
