[Firearms](#) > [Rifles](#) > [Lever Action](#)

Paired with a trusty revolver in the same caliber, or as a stand-alone trail partner, the rifle takes to a saddle scabbard like it was born there, and the carbine carries just as trim through the brush on foot as it does in and out of the truck or Jeep. These steel Big Boys are also drilled and tapped for scope mounts, and coupled with our dependable smooth actions and built-in accuracy, they're every bit as good on the Fall hunt as they are on Saturday afternoon paper at the range.
