

# MODBUTTON LITE LIGHT SWITCH - MODLITE SYSTEMS SUREFIRE 4.5" MODBUTTON, BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

ModButton Lite is a smaller lighter weight cousin to the original ModButton. The switch features the same momentary only activation as the original ModButton. It also features the same high-power cable and switch from ModButton but in a slightly smaller package without the integrated mount. The switch is made from injection molded plastic and fully potted to provide extra degree of protection in harsh environments and ensures a durable long-lasting switch. ModButton Lite utilizes a patented Unity Tactical design which supports power delivery needed by the next generation of high output weapon lights like Modlite. A Unity built Surefire® compatible cable lead allows ModButton Lite to be backwardly compatible with all Surefire®, Arisaka and Modlite Scout bodies as well as Surefire UE and DS00 tail caps. If constant on is a requirement Modlite recommends using a SF DS00 tail cap. One problem that exists today is older legacy switches are not able to pass the current needed to run current and future generation lights. These older switch designs do not allow Modlite light heads to run at full power. Typically, these switches reduce output by 15-20%. ModButton Lite utilizes an updated plug design as well as improved electronics that allow the ModButton Lite to output at full power so all the lumens and candela can be put to good use. The package includes the switch PIC mounting rails and mounting hardware only no tail cap is supplied. Modlite recommends the Surefire UE or DS00 tail caps. Made in the USA Weight: 1.8oz Dimensions: 1.0 × 3.8 × 5.7 in Mounting Side: Left or Right Color: Black or Tan

## Attributes

- Name: [MODLITE SYSTEMS SUREFIRE 4.5" MODBUTTON, BLACK](#)
- Manufacturer: [MODLITE SYSTEMS](#)
- Product no.: 100042513
- Mfr. No.: MBL-BLK-SF-4.5
- Colour: Black
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 152mm
- UPC: 810007880525

# MODBUTTON LITE LIGHT SWITCH SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the ModButton Lite Light Switch from Modlite Systems. This guide provides important safety instructions and usage guidelines to ensure a safe and effective experience with your new product. Please read this guide carefully before using the ModButton Lite.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the ModButton Lite by following all instructions provided in this guide.
- **Enhanced Recalls:** Stay informed about any potential recalls related to your product. In case of a recall, you will be notified with standardized notices and offered remedies.
- **Online Shopping:** If you purchased this product online, you have the same safety protections as if you bought it in a physical store.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, such as children. Keep the product out of reach of children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point for assistance.
- **Rapid Alerts:** Stay updated on any safety alerts regarding the ModButton Lite through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Electrical Safety:** Ensure that the ModButton Lite is used with compatible devices only. Using it with incompatible devices may cause malfunction or damage.
- **Environmental Considerations:** Avoid using the ModButton Lite in extreme temperatures or wet conditions. It is designed for use in harsh environments but should not be exposed to excessive moisture.
- **Physical Safety:** Do not modify the ModButton Lite or attempt to disassemble it. Modifications can lead to unsafe conditions and void the warranty.
- **Power Supply:** Ensure that the power supply used with the ModButton Lite meets the required specifications to prevent overheating or electrical failure.

## Instructions for Installation and Usage

### 1. Installation:

- Choose the appropriate mounting side (left or right) for your application.
- Use the provided PIC mounting rails and hardware to securely attach the ModButton Lite to your desired location.
- Ensure that the mounting is stable and that the switch is easily accessible for operation.

### 2. Using the ModButton Lite:

- The ModButton Lite features momentary activation. Press the switch to activate the light and release to turn it off.
- For constant functionality, it is recommended to use a Surefire DS00 tail cap.
- Ensure that the ModButton Lite is connected to a compatible Surefire, Arisaka, or Modlite Scout body to achieve optimal performance.

### 3. Maintenance:

- Regularly inspect the ModButton Lite for any signs of wear or damage.
- Clean the surface of the switch with a dry cloth. Avoid using solvents or abrasive materials.

## **Disposal Instructions**

- Dispose of the ModButton Lite in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in regular household waste.
- For information on proper disposal methods, consult your local waste management authority.

## **Contact Information for Further Support**

- For further assistance or inquiries regarding safety, usage, or warranty, please refer to the designated contact point provided by the manufacturer or retailer.

Thank you for following these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy the reliable performance of your ModButton Lite Light Switch!
