

TAPS STANDARD - UNITY TACTICAL TAPS CRANE LASER/CRANE LASER 9", BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS allows placement of weapon accessories in optimal location while providing a single point of actuation of the operator's choosing. Rather than needing to place both light and laser where they can be activated directly, or needing to find places for multiple remote pressure pads while securing loose cables, TAPS literally places control at the operator's fingertips in a single, user-friendly package. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two onboard buttons and two accessory leads. TAPS comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. Custom configurations are available for contract (minimums apply). TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield. TAPS is a revolutionary paradigm shift in the way weapon-mounted electronic devices are operated. No other product puts this level of customization, command, or control in the operator's hands. It is the most low-profile, most secure, and most durable control station on the market. Welcome to the Modern Battlefield. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

Attributes

- Name: [UNITY TACTICAL TAPS CRANE LASER/CRANE LASER 9", BLACK](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043388
- Mfr. No.: TAPS-II9B
- Colour: Black
- Delivery weight: 0.059kg
- Shipping height: 25mm
- Shipping width: 127mm
- Shipping length: 165mm
- UPC: 859114006854

TAPS STANDARD UNITY TACTICAL TAPS CRANE LASER/CRANE LASER 9", BLACK Safety Instruction Guide

Introduction

Thank you for choosing the TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your TAPS device. Please read this manual thoroughly before installation and use.

General Safety Guidelines

To ensure safe use of the TAPS device, please adhere to the following general safety guidelines:

- Ensure that the TAPS device is installed and used according to the manufacturer's instructions.
- Regularly check the device for any signs of damage or wear before each use.
- Avoid using the TAPS device in wet or humid conditions unless it is properly installed and rated for such environments.
- Keep the device out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

When using the TAPS device, follow these specific safety precautions:

- **Avoid Direct Contact with Hot Surfaces:** The device may become hot during extended use. Handle with care.
- **Proper Installation:** Ensure that the TAPS is securely mounted to the weapon rail to prevent accidental detachment during operation.
- **Battery Safety:** If applicable, use only the recommended batteries. Do not mix old and new batteries or different brands.
- **Waterproofing:** The TAPS is waterproof to 1 meter for 30 minutes. Ensure proper installation to maintain this rating.
- **Electrical Safety:** Do not expose the device to water or moisture, as this may cause electrical failures.

Instructions for Installation and Usage

To install and use the TAPS device safely, follow these instructions:

1. Installation:

- Ensure the weapon is unloaded and safe before installation.
- Mount the TAPS directly onto the weapon's industry standard rail (M1913 Picatinny, KEYMOD, or MLOK).
- Use the provided hardware to secure the device firmly. Ensure it is tight and stable.
- Connect the accessory leads according to the manufacturer's specifications.

2. Usage:

- To activate the device, press the onboard buttons located on the TAPS.
- For momentary activation, press and hold the button. Release to deactivate.

- Familiarize yourself with the operation of the device before use in the field.
- Regularly test the device to ensure it is functioning properly.

Disposal Instructions

When disposing of the TAPS device, please follow these guidelines:

- Dispose of the device in accordance with local regulations regarding electronic waste.
- Remove any batteries and dispose of them separately according to battery disposal guidelines.
- Do not dispose of the device in regular household waste.

Contact Information for Further Support

For any inquiries or further assistance regarding the TAPS device, please refer to the manufacturer's contact information provided with the product or visit their official website for support resources.

Thank you for your attention to these safety instructions. Proper use and care of the TAPS device will enhance your operational effectiveness while ensuring safety.
