

TAPS STANDARD - TAPS SUREFIRE/SUREFIRE 9" BLACK

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS allows placement of weapon accessories in optimal location while providing a single point of actuation of the operator's choosing. Rather than needing to place both light and laser where they can be activated directly, or needing to find places for multiple remote pressure pads while securing loose cables, TAPS literally places control at the operator's fingertips in a single, user-friendly package. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two onboard buttons and two accessory leads. TAPS comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. Custom configurations are available for contract (minimums apply). TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield. TAPS is a revolutionary paradigm shift in the way weapon-mounted electronic devices are operated. No other product puts this level of customization, command, or control in the operator's hands. It is the most low-profile, most secure, and most durable control station on the market. Welcome to the Modern Battlefield. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

Attributes

- Name: [TAPS SUREFIRE/SUREFIRE 9" BLACK](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043394
- Mfr. No.: TAPS-SS9B
- Color: Black
- Delivery weight: 0.839kg
- Shipping height: 3mm
- Shipping width: 10mm

TAPS STANDARD TAPS SUREFIRE/SUREFIRE 9" BLACK Safety Instruction Guide

Introduction

Thank you for choosing the TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical. This guide provides important safety information and instructions for the proper use of your TAPS device. Please read this guide carefully to ensure safe and effective operation.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS device by following all instructions and guidelines provided in this manual.
- **Enhanced Recalls:** Stay informed about product recalls. Check for updates regularly to ensure your product is safe.
- **Online Shopping Protections:** If purchased online, ensure the platform complies with safety requirements as mandated by EU regulations.
- **Special Consumer Focus:** Extra care should be taken when the device is used around vulnerable groups, especially children. Keep the device out of reach of children.
- **EU Contact Point:** For any safety inquiries, refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on any unsafe products.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Do not use the TAPS device if it appears damaged or malfunctioning.
 - Ensure that the device is mounted securely to avoid accidental discharges.
 - Avoid exposure to excessive moisture or extreme temperatures beyond specified limits.
- **Avoiding Hazards:**
 - Always test the device in a safe environment before operational use.
 - Do not place the device near flammable materials or in situations where it could cause harm.
 - Ensure that all accessories are compatible and securely attached before use.
- **AgeSpecific Warnings:**
 - The TAPS device is not intended for use by children. Ensure it is used only by trained adults.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the weapon is unloaded and safe before installation.
 2. Mount the TAPS device directly onto any industry standard rail (M1913 Picatinny, KEYMOD, MLOK) without the need for thirdparty adapters.
 3. Securely attach the device using the provided hardware, ensuring it is fastened tightly to prevent movement during use.
- **Usage:**

1. Familiarize yourself with the two onboard buttons and their functions.
2. Activate the device using the button of your choice for momentary operation.
3. Regularly check the device's functionality to ensure it is operating correctly.

- **PostUse Care:**

- After use, clean the device with a dry cloth to remove any debris.
- Store the TAPS device in a dry place, away from direct sunlight and extreme temperatures.

Disposal Instructions

- Dispose of the TAPS device in accordance with local regulations for electronic waste.
- Do not dispose of the device in regular household waste. Instead, take it to a designated electronic waste recycling facility.
- Ensure that all batteries and electronic components are removed and disposed of properly.

Contact Information for Further Support

For any questions or concerns regarding the TAPS device, please refer to the contact information provided on the packaging or the manufacturer's website.
