

TAPS STANDARD - UNITY TACTICAL TAPS SUREFIRE/SUREFIRE 9" FDE

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS allows placement of weapon accessories in optimal location while providing a single point of actuation of the operator's choosing. Rather than needing to place both light and laser where they can be activated directly, or needing to find places for multiple remote pressure pads while securing loose cables, TAPS literally places control at the operator's fingertips in a single, user-friendly package. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two onboard buttons and two accessory leads. TAPS comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. Custom configurations are available for contract (minimums apply). TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield TAPS is a revolutionary paradigm shift in the way weapon-mounted electronic devices are operated. No other product puts this level of customization, command, or control in the operator's hands. It is the most low-profile, most secure, and most durable control station on the market. Welcome to the Modern Battlefield. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

Attributes

- Name: [UNITY TACTICAL TAPS SUREFIRE/SUREFIRE 9" FDE](#)
- Manufacturer: [UNITY TACTICAL](#)
- Product no.: 100043395

TAPS STANDARD UNITY TACTICAL TAPS SUREFIRE/SUREFIRE 9" FDE Safety Instruction Guide

Introduction

Thank you for choosing the TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical. This product is designed to provide a reliable and efficient command and control system for weaponmounted electronics. To ensure your safety and the proper functioning of the device, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure the TAPS is used only with compatible weaponmounted electronics.
- Always check for any visible damage to the product before use.
- Keep the device away from moisture and extreme temperatures when not in use.
- Store the TAPS in a secure location, out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents involving the TAPS to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:** The TAPS may pose risks if not used correctly. Potential hazards include:
 - Accidental activation of lights and lasers.
 - Damage to the device due to improper installation.
 - Injury from improper handling of weaponmounted electronics.
- **Avoiding Hazards:**
 - Always ensure that the TAPS is securely mounted on the weapon rail before use.
 - Do not attempt to modify or disassemble the TAPS.
 - Use the TAPS in accordance with the manufacturer's instructions to prevent accidents.
 - Ensure that the buttons are not obstructed during use to avoid unintentional activation.
- **AgeSpecific Warnings:** This product is intended for adult users only. Keep out of reach of children.

Instructions for Installation and Usage

1. Installation:

- Ensure the weapon is unloaded and safe before installation.
- Mount the TAPS directly onto any industrystandard rail (M1913 Picatinny, KEYMOD, or MLOK).
- No additional rail adapters are needed for installation.
- Secure the TAPS firmly to prevent movement during operation.

2. Usage:

- The TAPS features two onboard buttons for easy access.
- Use the momentary activation feature to control lights and lasers as needed.
- Familiarize yourself with the placement of the buttons to ensure quick and effective use.
- Regularly check the device for wear and tear, ensuring it remains functional.

Disposal Instructions

- Dispose of the TAPS in accordance with local regulations regarding electronic waste.
- Do not dispose of the TAPS in regular household waste.
- Consider recycling the device if possible, following your local electronic recycling guidelines.

Contact Information for Further Support

- For any questions or concerns regarding the TAPS, please refer to the manufacturer's website or contact customer support directly.

By following these safety instructions, you can ensure a safe and effective experience with your TAPS Tactical Augmented Pressure Switch. Thank you for your attention to these guidelines.
