

# TAPS SYNC - UNITY TACTICAL TAPS SYNC SUREFIRE/LASER 9" FDE VARIANT 3

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

TAPS (Tactical Augmented Pressure Switch) from TNVC and Unity Tactical is a complete one point command and control system for all weapon-mounted electronics. It provides low profile, dual-device control for lights and lasers. TAPS mounts directly to any industry standard rail, including M1913 Picatinny, KEYMOD, and M-LOK. No third party rail adapters are needed, keeping the weapon lighter and sleeker. It features two on-board buttons and two accessory leads. Available in 4 button configurations, TAPS SYNC utilizes a patented double pole dome switch to fire both devices simultaneously on isolated circuits to protect your devices. This TAPS switch comes standard with a Surefire Light lead and MIL-Standard / Crane Laser Lead that fits NATO standard lasers from Insight Technology, Steiner, B.E. Meyers, and others. TAPS is waterproof to 1 meter for 30 minutes when properly installed on a rail, and features more durable buttons than many competing pressure switches on the market. Its hardened housing will keep TAPS standing up to the rigors of the battlefield TAPS SYNC allows the user to fire two devices simultaneously with one button, and is available in 4 button variations: Variant 1 - Button1: Light | Button2: Light + Laser Variant 2 - Button1: Laser | Button2: Light + Laser Variant 3 - Button1: Light + Laser | Button2: Light Variant 4 - Button1: Light + Laser | Button2: Laser Note: the dual-function SYNC button requires a slightly higher activation force than the standard single device button. Mode(s): Momentary Only Weight: 2.25oz w/hardware Waterproof: 1 meter for 30 minutes

## Attributes

# TAPS SYNC Unity Tactical Safety Instructions

## Introduction

Thank you for choosing the TAPS SYNC Unity Tactical TAPS SYNC Surefire/Laser 9" FDE Variant 3. This product is designed to enhance your command and control capabilities for weaponmounted electronics. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the TAPS SYNC by following all guidelines provided in this manual.
- **Enhanced Recalls:** Stay informed about product recalls. In the event of a recall, follow the instructions provided to return or remedy the product.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety requirements.
- **Special Consumer Focus:** Keep this product out of reach of children. It is not intended for use by individuals under the age of 18.
- **EU Contact Point:** For safety inquiries, ensure you have access to an EUbased contact.
- **Rapid Alerts:** Regularly check the EU's Safety Gate platform for updates on unsafe products.

## Specific Safety Precautions for Use

- **Hazard Identification:** Improper use may result in malfunction or damage to the product and associated devices. Avoid exposing the product to extreme environmental conditions, such as high humidity or submersion beyond the specified waterproof rating.
- **Avoiding Hazards:** Ensure the TAPS SYNC is installed correctly on a compatible rail system. Do not attempt to modify or repair the product yourself. Seek professional assistance if needed. Use the product only with compatible devices as specified in the product documentation.
- **AgeSpecific Warnings:** This product is not suitable for children. Ensure that it is used only by trained and responsible adults.

## Instructions for Installation and Usage

- **Installation:**
  1. Ensure the weapon is unloaded and safe before installation.
  2. Mount the TAPS SYNC directly onto any industrystandard rail (M1913 Picatinny, KEYMOD, or MLOK).
  3. Secure the product firmly to prevent any movement during use.
  4. Connect the Surefire Light lead and MILStandard/Crane Laser Lead to the compatible devices.
- **Usage:**
  1. Familiarize yourself with the button configurations: **Variant 1:** Button1 Light | Button2 Light + Laser **Variant 2:** Button1 Laser | Button2 Light + Laser **Variant 3:** Button1 Light + Laser | Button2 Light **Variant 4:** Button1 Light + Laser | Button2 Laser
  2. Use the dualfunction SYNC button with a firm press to activate both devices simultaneously.
  3. Note that the activation force required for the SYNC button is slightly higher than that of the standard single device button.
- **Maintenance:** Regularly inspect the TAPS SYNC for any signs of wear or damage. Clean the product with a soft, dry cloth. Avoid using solvents or harsh chemicals.

## Disposal Instructions

- Dispose of the TAPS SYNC in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in household waste. Seek out designated electronic waste disposal

facilities.

## **Contact Information for Further Support**

For any further support or inquiries regarding the TAPS SYNC, please consult the retailer or manufacturer from whom you purchased the product. Ensure you have the product details ready for efficient assistance.

Thank you for your attention to these safety instructions. Your safety and effective use of the TAPS SYNC are our top priorities.
