## An Adjustable Cheek Rest That'll Have You Wanting to Shoot All Day

Tired of fighting your fixed stock to get a clear picture through your mounted optic? There's no reason to just live with a chin weld instead of a cheek weld. The Armageddon Gear Velcro Cheeky Bastard gives you an easy way to adjust the height of your stock comb without investing huge amounts of money into custom work or an aftermarket chassis. Plus, it's built to be comfortable, so you can enjoy shooting all day without getting uncomfortable. Each Armageddon Gear Cheeky Bastard is built with a single layer of padding and covered with a lightweight mesh that provides airflow and keeps you cool and dry on a hot range day. There's a hook-and-loop strap that allows you to attach the rest to any fixed-position stock. You'll also get two padded inserts that can stack on top of one another for added height. Life's too short to live with an uncomfortable gun. Get the Cheeky Bastard, and start shooting in comfort.
