

# AR-15 BLACKBEARD DRYFIRE AUTO-RESETTING TRIGGER SYSTEM - MANTIS TECH LLC AR-15 DRY FIRE SYSTEM WITHOUT LASER

[Shooting Accessories](#) > [Training & Safety Gear](#) > [Training & Simulation](#)

You want to be able to do dry fire practice with your AR-15 without having to run the charging handle between shots. An auto-resetting trigger sounds like the perfect thing. This is not a drop-in trigger kit that you can swap with your trigger. This is not a modification to your existing trigger. This is a drop-in Bolt Carrier Group + magazine that works with your existing trigger. It has the same weight, break, and reset. Your dry fire practice just became 100x more effective and engaging. Using electromechanical wizardry, Blackbeard allows you to take up to 10 dry fire shots per second, quickly resetting the hammer between each shot. The ultimate AR trigger reset machine.

Installation takes less than a minute. Break open your AR, remove the bolt carrier group, drop in Blackbeard, close your baby up, and put the magazine in place to provide the power. It's a 20 second change-out. Dry fire away, counting how much money you're saving with every sweet trigger break and reset that you hear. Note: all Blackbeards support both direct impingement and piston-driven ARs. Available in four different variations: No laser, trigger reset only Red laser Green laser Infrared laser Technical Laser Details: 650 nm, 60ms pulse duration, Continuous wave for the Red laser 520 nm, 60ms pulse duration, Continuous wave for the Green laser 780 nm, 60ms pulse duration, Continuous wave for the IR laser

# **Safety Instruction Guide for AR15 BLACKBEARD DRYFIRE AUTORESETTING TRIGGER SYSTEM**

## **Introduction**

Thank you for choosing the AR15 BLACKBEARD Dryfire AutoResetting Trigger System by Mantis Tech LLC. This innovative product allows for effective dry fire practice with your AR15 without the need to manually operate the charging handle between shots. To ensure your safety and the safe use of this product, please read and follow the instructions and guidelines outlined in this document.

## **General Safety Guidelines**

- Always treat your firearm as if it is loaded.
- Ensure the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until ready to shoot.
- Use this product only in a safe and controlled environment.
- Store the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of damage or malfunction before use.
- Report any unsafe products or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## **Specific Safety Precautions for Use**

- Do not use the Blackbeard system with live ammunition.
- Ensure that the firearm is unloaded before installation of the Blackbeard system.
- Avoid using the product in environments where distractions or hazards may be present.
- Ensure that all participants are familiar with firearm safety rules.
- Always wear appropriate eye protection when practicing with the Blackbeard system.
- Do not modify or alter the Blackbeard system in any way.

## **Instructions for Installation and Usage**

### **1. Installation**

- Open your AR15 by removing the upper receiver from the lower receiver.
- Remove the existing bolt carrier group from the upper receiver.
- Insert the Blackbeard Bolt Carrier Group into the upper receiver.
- Close the upper receiver and ensure it is securely locked in place.
- Insert the Blackbeard magazine into the magazine well to provide power.

### **2. Usage**

- Ensure the firearm is pointed in a safe direction.
- Engage the safety mechanism of the firearm.
- Pull the trigger to initiate dry fire practice. The Blackbeard system allows for up to 10 dry fire shots per second.
- Practice your trigger control and shooting skills while counting the savings from each trigger break and reset.
- After practice, remove the Blackbeard system by reversing the installation steps.

## **Disposal Instructions**

- Dispose of the Blackbeard system in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the AR15 BLACKBEARD Dryfire AutoResetting Trigger System, please refer to the manufacturer's website or customer support resources.

Thank you for your cooperation in following these safety instructions. Your safety and the safety of others is our priority. Enjoy your dry fire practice with the AR15 BLACKBEARD system!
