

# AR-15 BLACKBEARD DRYFIRE AUTO-RESETTING TRIGGER SYSTEM - MANTIS TECH LLC AR-15 DRY FIRE SYSTEM W/RED LASER

[Shooting Accessories](#) > [Training & Safety Gear](#) > [Training & Simulation](#)

You want to be able to do dry fire practice with your AR-15 without having to run the charging handle between shots. An auto-resetting trigger sounds like the perfect thing. This is not a drop-in trigger kit that you can swap with your trigger. This is not a modification to your existing trigger. This is a drop-in Bolt Carrier Group + magazine that works with your existing trigger. It has the same weight, break, and reset. Your dry fire practice just became 100x more effective and engaging. Using electromechanical wizardry, Blackbeard allows you to take up to 10 dry fire shots per second, quickly resetting the hammer between each shot. The ultimate AR trigger reset machine. Installation takes less than a minute. Break open your AR, remove the bolt carrier group, drop in Blackbeard, close your baby up, and put the magazine in place to provide the power. It's a 20 second change-out. Dry fire away, counting how much money you're saving with every sweet trigger break and reset that you hear. Note: all Blackbeards support both direct impingement and piston-driven ARs. Available in four different variations: No laser, trigger reset only Red laser Green laser Infrared laser Technical Laser Details: 650 nm, 60ms pulse duration, Continuous wave for the Red laser 520 nm, 60ms pulse duration, Continuous wave for the Green laser 780 nm, 60ms pulse duration, Continuous wave for the IR laser

## Attributes

- Name: [MANTIS TECH LLC AR-15 DRY FIRE SYSTEM W/RED LASER](#)
- Manufacturer: [MANTIS TECH LLC](#)
- Product no.: 100043911
- Mfr. No.: MT-5002
- Laser Color: Red
- Delivery weight: 0.857kg
- Shipping height: 70mm
- Shipping width: 184mm
- Shipping length: 267mm
- UPC: 860001683417

# Safety Instruction Guide for AR15 BLACKBEARD DRYFIRE AUTORESETTING TRIGGER SYSTEM

## Introduction

Thank you for choosing the AR15 BLACKBEARD Dryfire AutoResetting Trigger System by Mantis Tech LLC. This guide is designed to provide you with essential safety information and instructions for the safe use of this product. Please read this guide carefully to ensure a safe and enjoyable experience during your dry fire practice.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your AR15 firearm before using the BLACKBEARD system.
- Always treat your firearm as if it is loaded, even when using the BLACKBEARD system.
- Keep the BLACKBEARD system and all components out of reach of children and unauthorized users.
- Regularly inspect the BLACKBEARD system for any signs of damage or wear before use.
- Use the BLACKBEARD system only in a safe and controlled environment.
- Be aware of your surroundings and ensure that you have a safe backstop when dry firing.
- Do not use the BLACKBEARD system if you are under the influence of drugs or alcohol.

## Specific Safety Precautions for Use

- Only use the BLACKBEARD system with compatible AR15 models.
- Ensure the firearm is unloaded before installation of the BLACKBEARD system.
- Do not attempt to modify or alter the BLACKBEARD system in any way.
- Avoid pointing the firearm at anything you do not intend to shoot, even during dry fire practice.
- Use eye protection while practicing with the BLACKBEARD system to protect against accidental discharges.
- Be cautious of the laser emitted by the BLACKBEARD system. Do not point the laser at eyes or reflective surfaces.

## Instructions for Installation and Usage

### 1. Installation

- Break open your AR15 and ensure it is unloaded.
- Remove the existing bolt carrier group from the firearm.
- Insert the BLACKBEARD system into the firearm in place of the bolt carrier group.
- Close the firearm securely.
- Insert the BLACKBEARD magazine to provide power to the system.

### 2. Usage

- Ensure the firearm is pointed in a safe direction.
- Engage in dry fire practice by pulling the trigger. The BLACKBEARD system allows for up to 10 dry fire shots per second with quick hammer resets.
- Listen for the trigger break and reset sounds to gauge your practice effectiveness.
- After use, remove the BLACKBEARD system and store it safely.

## Disposal Instructions

- Dispose of the BLACKBEARD system in accordance with local regulations regarding electronic waste.
- Ensure that any components that are no longer functional are disposed of safely to prevent

environmental harm.

## **Contact Information for Further Support**

For any inquiries regarding the safety and usage of the BLACKBEARD system, please refer to the manufacturer's contact information provided with your product packaging.

## **Conclusion**

Your safety is our priority. By following the guidelines and instructions outlined in this safety instruction guide, you can ensure a safe and effective dry fire practice experience with the AR15 BLACKBEARD Dryfire AutoResetting Trigger System. Thank you for your attention to these safety measures. Enjoy your training!
