

LIBERATOR II MINI RED DOT SIGHT - SWAMPFOX OPTICS

LIBERATOR II 1X22MM 2 MOA MINI RED DOT BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

Liberator II keeps everything we liked about the original Liberator, while stuffing the inside with upgraded technology, like new emitters with greatly improved battery life and Shake 'N Wake motion sensing auto on/off. The first two brightness settings are night vision compatible, with the following 8 further settings daylight visible. Liberator II ships with two 1913 MIL-STD Picatinny mounts for use on a variety of platforms and the scope body is compatible with industry standard micro dot mounts. Small and light but tough, Liberator II is rated for 800 Gs of shock, so it's a great fit for 12 gauge shotguns and .308 rifles. Liberator II is waterproof, fog resistant and features hydrophobic & anti-scratch coatings on the anti-glare lenses.

Safety Instruction Guide for LIBERATOR II MINI RED DOT SIGHT

Introduction

Thank you for choosing the LIBERATOR II Mini Red Dot Sight from Swampfox Optics. This guide provides essential safety instructions and guidelines to ensure the safe use of your product. It is important to follow these guidelines to maximize your safety and the performance of the sight.

General Safety Guidelines

- Ensure the sight is used only for its intended purpose.
- Always handle the sight with care to avoid damage.
- Keep the sight out of reach of children and vulnerable individuals.
- Regularly check for any signs of damage or malfunction.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Eye injury from misuse or improper installation.
 - Injury from recoil if the sight is not securely mounted.
 - Damage to the sight from exposure to water or extreme conditions if not properly maintained.
- **Instructions for Avoiding Hazards:**
 - Always ensure that the sight is securely mounted to avoid detachment during use.
 - Avoid looking directly into the sight while it is mounted on a firearm.
 - Use the sight only in conditions for which it is rated (e.g., waterproof, fog resistant).
 - Do not expose the sight to extreme temperatures or harsh chemicals.
- **Age or Audience Specific Warnings:**
 - This product is not intended for use by children. Always supervise use by inexperienced individuals.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before installation.
- Select a compatible mounting platform (1913 MILSTD Picatinny mounts are included).
- Align the sight with the mounting rail and secure it using the provided screws.
- Confirm that the sight is firmly attached and does not move when shaken.

2. Usage:

- Power on the sight by pressing the designated button.
- Adjust brightness settings according to your environment; the first two settings are night vision compatible.
- Always check the reticle alignment before shooting.

- After use, turn off the sight to preserve battery life.

Disposal Instructions

- Dispose of the sight in accordance with local regulations.
- Remove the battery (CR 2032) before disposal.
- Do not dispose of electronic waste in regular trash; use designated electronic waste recycling facilities.

Contact Information for Further Support

For any questions or concerns regarding the LIBERATOR II Mini Red Dot Sight, please refer to the manufacturer's website or customer support channels. It is essential to have access to assistance for safe and effective use of the product.

By following these safety instructions, you can ensure a safe and enjoyable experience with your LIBERATOR II Mini Red Dot Sight. Thank you for your attention to these important guidelines.
