

# CLASSIC BULLET SIZING KIT - LEE PRECISION 0.311" DIAMETER CLASSIC BULLET SIZING KIT

[Reloading](#) > [Bullet Casting](#) > [Lube & Sizer Dies](#)

Lee Bullet Sizing Kits are the fastest and easiest way to size cast bullets. Standard 7-8x14" threads fit any single stage reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and crimped in place. Sized bullets are captured in the special container. Complete for one size. Press and bullet lubricant are sold separately. Special note: Intended for use on single stage presses only. The push through Punch is used in place of a Shell Holder in the Ram. Lee does not make top punches for molds. With the use of this kit, a top punch is not necessary. To crimp gas checks with the lube and size kit, first lubricate the bullets with liquid alox, push a gas check on the base of the bullet and set the bullet on the punch. When the bullet is pushed through the sizing die, the bullet will be sized, and the gas check will be crimped on. For cast bullets, you want to select a sizing kit to be .001" larger than groove diameter.

## Attributes

- Name: [LEE PRECISION 0.311" DIAMETER CLASSIC BULLET SIZING KIT](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053246
- Mfr. No.: 90039
- Diameter (in): 0.311
- Delivery weight: 0.408kg
- Shipping height: 140mm
- Shipping width: 82mm
- Shipping length: 86mm
- UPC: 734307900397

# CLASSIC BULLET SIZING KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the CLASSIC BULLET SIZING KIT by LEE PRECISION. This guide provides essential safety instructions and usage guidelines to ensure your safe and effective use of this product. Please read this document carefully before using the kit.

## General Safety Guidelines

- **Product Safety:** Always ensure that the CLASSIC BULLET SIZING KIT is used according to the instructions provided. This product is designed for safe use with nonfood items and should not be misused.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. Regularly check the EU's Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure that the seller complies with EU safety requirements.
- **Special Consumer Focus:** This product is not intended for use by children. Ensure it is stored out of reach of minors.
- **EU Contact Point:** For any safety inquiries, please refer to the contact points provided by the seller or manufacturer.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on any unsafe products.

## Specific Safety Precautions for Use

- **Use Only with Single Stage Presses:** This kit is designed solely for use with single stage reloading presses. Using it with other types of presses may pose safety risks.
- **Avoid Direct Contact with Skin:** When handling lubricants or gas checks, avoid direct skin contact. Use gloves if necessary.
- **Check Your Equipment:** Before using the kit, inspect your reloading press and components for any damage or wear that may affect safety.
- **Proper Ventilation:** Ensure that your work area is wellventilated while using lubricants or chemicals.
- **Keep Out of Reach of Children:** Store this kit in a secure location away from children and pets.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure you have all components of the CLASSIC BULLET SIZING KIT.
- Gather necessary tools, including a single stage reloading press and bullet lubricant (sold separately).

### 2. Setting Up the Kit:

- Install the sizing die into your single stage reloading press using standard 7/8x14" threads.
- Ensure the die is securely tightened to prevent movement during operation.

### 3. Using the Kit:

- Lubricate the bullets with liquid alox before sizing.
- Push a gas check onto the base of the bullet.
- Place the bullet on the pushthrough punch, ensuring it is aligned correctly.
- Pull the handle on the reloading press to push the bullet through the sizing die. The bullet will be

- sized, and the gas check will be crimped in place.
- Remove the sized bullet from the special container.

#### **4. Safety Checks:**

- After use, inspect the bullets for any damage or improper sizing.
- Clean the sizing die and press to maintain equipment longevity.

## **Disposal Instructions**

- Dispose of any packaging materials and used components in accordance with local waste disposal regulations.
- Do not dispose of lubricants or chemicals down the drain. Follow local guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any questions or concerns regarding the CLASSIC BULLET SIZING KIT, please refer to the contact information provided by the seller or manufacturer. It is essential to keep all packaging and documentation for future reference.

Thank you for choosing LEE PRECISION. Your safety is our priority. Enjoy your reloading experience!
