Safety Instruction Guide for the Lee Taper Crimp Die

Introduction

Thank you for choosing the Lee Taper Crimp Die for your reloading needs. This product is designed to enhance the safety and efficiency of your reloading process. To ensure safe use and compliance with the EU General Product Safety Regulation (GPSR), please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before using the Lee Taper Crimp Die.
- Always wear appropriate safety gear, including safety glasses, when using reloading equipment.
- Keep the work area clean and organized to minimize the risk of accidents.
- Store the die in a safe place, out of reach of children and pets.
- Regularly inspect the die for signs of wear or damage before each use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Proper Handling:** Always handle the die with care to avoid injury. Use appropriate tools to install and remove the die.
- **Crimp Groove:** Ensure that jacketed bullets used with this die have a crimp groove to prevent bullet setback.
- **Avoid OverCrimping:** Do not overcrimp the cartridges, as this can lead to dangerous pressure levels and potential malfunction.
- **Caliber Compatibility:** Only use the die with compatible cartridges: 357 Magnum, 38 Special, and 357 Maximum.
- **Work Environment:** Use the die in a wellventilated area, free from distractions and hazards.

Instructions for Installation and Usage

1. Installation:

- Ensure your reloading press is securely mounted and stable.
- Remove any existing dies from the press.
- Insert the Lee Taper Crimp Die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during operation.

2. Usage:

- Prepare your cases and ensure they are clean and free of obstructions.
- Adjust the die according to the specific requirements for the cartridge you are using.
- Place the bullet into the case mouth and raise the ram to engage the die.
- Monitor the crimp to ensure it is within safe limits, avoiding overcrimping.
- Inspect the completed cartridges for quality and safety before storage or use.

Disposal Instructions

- Dispose of any damaged or wornout dies in accordance with local regulations for metal waste.
- Do not dispose of the die in regular household waste.

- Check with local authorities for specific disposal guidelines related to reloading equipment.

Contact Information for Further Support

For any inquiries or concerns regarding the Lee Taper Crimp Die, please refer to the manufacturer's website or contact your local distributor for assistance.

By following these instructions, you can ensure safe and effective use of the Lee Taper Crimp Die. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these safety guidelines.
