# Safety Instruction Guide for Lee Taper Crimp Die, 45 ACP

## Introduction

Thank you for choosing the Lee Taper Crimp Die for your reloading needs. This guide provides important safety information and instructions for the safe use, installation, and disposal of this product. Please read this guide thoroughly before using the die to ensure safe and effective operation.

## General Safety Guidelines

- Ensure the die is used only for its intended purpose as a taper crimp die for .45 ACP cartridges.
- Always wear appropriate safety gear, including safety glasses, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store the die in a secure location, out of reach of children and pets.
- Be aware of the legal requirements for reloading ammunition in your area.

## Specific Safety Precautions for Use

- Before using the die, inspect it for any signs of damage or wear. Do not use if damaged.
- Ensure that the die is compatible with your reloading press and .45 ACP cartridges.
- Use only jacketed bullets that have a crimp groove, as this die is designed specifically for them.
- Avoid overcrimping, which can lead to dangerous ammunition. Follow the recommended crimp specifications.
- Always follow the manufacturer's instructions for your reloading press and other components used with the die.
- Do not exceed the maximum load specifications for the .45 ACP cartridge as outlined in reputable reloading manuals.

## Instructions for Installation and Usage

### Installation Instructions

#### 1. Prepare Your Reloading Press:

- Ensure that your reloading press is clean and properly set up.
- Check that the press is securely mounted to a stable work surface.

#### 2. Install the Lee Taper Crimp Die:

- Loosen the lock ring on the die.
- Insert the die into the press and tighten the lock ring to secure it in place.
- Adjust the die to the desired position based on your reloading specifications.

#### 3. Set the Crimp:

- With an empty cartridge case, raise the ram of the press to the top position.
- Slowly lower the die until it makes contact with the case mouth.
- Adjust the die until you achieve the desired taper crimp.

### Usage Instructions

#### 1. Reloading Process:

- Follow your standard reloading procedure, ensuring that each cartridge is properly sized and charged.
- After seating the bullet, run the cartridge through the taper crimp die to apply the crimp.

## **2. Inspect the Finished Cartridges:**

- Check each finished cartridge for proper crimp and bullet seating.
- Ensure that the cartridges fit correctly in the chamber of your firearm.

## **3. Store the Die Safely:**

- After use, clean the die to remove any debris or residue.
- Store the die in a protective case or original packaging to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged or wornout dies in accordance with local regulations.
- Do not dispose of the die in regular household waste. Check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or concerns regarding the Lee Taper Crimp Die, please refer to the manufacturer's website or contact their customer service for assistance. Always ensure that you are following the latest safety guidelines and recommendations.

By following these safety instructions, you can ensure the safe and effective use of the Lee Taper Crimp Die for .45 ACP cartridges. Thank you for your commitment to safety in reloading.
