

2 CAVITY RIFLE BULLET MOLDS - LEE PRECISION 7.62MM (0.312") 155GR ROUND NOSE DOUBLE CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Rifle Moulds](#)

All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. All hollow base moulds are single cavity only as they have a self centering, automatic core pin for the fastest possible moulding. All moulds include handles and sprue plates.

Safety Instruction Guide for 2 Cavity Rifle Bullet Molds

Introduction

Thank you for choosing the 2 Cavity Rifle Bullet Molds by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this manual carefully before using the product to understand its features, potential hazards, and safe handling practices.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the molds.
- Keep the molds out of reach of children and vulnerable individuals.
- Inspect the molds regularly for any signs of damage or wear before use.
- Store the molds in a cool, dry place when not in use to prevent damage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Risk of Burns:** The molds can become very hot during use. Always handle with care and use heatresistant gloves.
- **Risk of Injury:** Use caution when handling sharp tools or components associated with the bullet molding process.
- **Risk of Chemical Exposure:** Ensure proper ventilation when using any lubricants or cleaning agents.
- **Age Restrictions:** This product is not intended for individuals under the age of 18. Adult supervision is recommended for inexperienced users.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and organized.
- Gather all necessary tools and materials before starting.

2. Setting Up the Molds:

- Secure the molds in a stable position on your work surface.
- Attach the handles and sprue plates as per the manufacturer's instructions.

3. Heating the Molds:

- Heat the molds to the recommended temperature before pouring the lead.
- Use a thermometer to monitor the temperature accurately.

4. Pouring the Lead:

- Carefully pour the molten lead into the mold cavities.
- Avoid overfilling to prevent spillage.

5. Cooling and Removing Bullets:

- Allow the molded bullets to cool completely before attempting to remove them.

- Use caution when demolding to avoid damaging the bullets or the molds.

6. Cleaning and Maintenance:

- Clean the molds after each use with appropriate cleaning agents.
- Inspect for any damage and perform maintenance as necessary.

Disposal Instructions

- Dispose of any waste materials, including lead scraps and used cleaning agents, in accordance with local regulations.
- Do not dispose of the molds in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety or usage of this product, please reach out to the manufacturer or authorized distributors for assistance.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities. Enjoy using your Lee Precision 2 Cavity Rifle Bullet Molds responsibly!
