

# 3-DIE ROLL CRIMP DIE SETS - RCBS 458 LOTT 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The RCBS 3-Die Roll Crimp Set is for loading straight-wall cartridges. Its steel Sizer Die sizes the case and de-primes. Note: Cases must be lubricated. The Expander Die expands the case to the proper diameter to accept the bullet, and it imparts case mouth flare/bell for bullet feeding. The Seater Die seats the bullet and roll crimps. Includes: Full Length Sizer Die Expander Die Roll Crimp Seater Die

## Attributes

# Safety Instruction Guide for RCBS 3DIE ROLL CRIMP DIE SETS

## Introduction

Thank you for choosing the RCBS 3DIE Roll Crimp Die Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the die set.

## General Safety Guidelines

- Ensure safe use of all nonfood products, including reloading equipment.
- Be aware of risks associated with using reloading dies and follow all safety precautions.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform for any safety alerts related to this product.
- Keep this guide in a safe place for future reference.

## Specific Safety Precautions for Use

- Always wear protective eyewear when reloading ammunition to protect against debris.
- Ensure that the workspace is clean and free from clutter to minimize the risk of accidents.
- Handle all components with care to avoid injury.
- Use only the recommended lubricants for cases to prevent damage during sizing.
- Keep the die set and all components out of reach of children and pets.
- Be aware of the potential hazards associated with handling ammunition components, including lead exposure.
- Follow all local laws and regulations regarding reloading and ammunition storage.

## Instructions for Installation and Usage

### Installation

#### 1. Prepare Your Workspace:

- Ensure that your reloading area is welllit and organized.
- Gather all necessary tools and materials before starting.

#### 2. Install the Sizer Die:

- Insert the Full Length Sizer Die into your reloading press.
- Secure the die tightly to prevent movement during operation.

#### 3. Install the Expander Die:

- Insert the Expander Die into the press after the Sizer Die.
- Adjust the die to achieve the desired case expansion.

#### 4. Install the Roll Crimp Seater Die:

- Finally, install the Roll Crimp Seater Die into the press.
- Adjust the die to ensure proper bullet seating and crimping.

## Usage

### 1. Lubricate Cases:

- Apply lubricant to all cases before sizing to prevent sticking and damage.

### 2. Size and Deprime:

- Insert a lubricated case into the Sizer Die and operate the press to size and deprime the case.

### 3. Expand the Case:

- After sizing, insert the case into the Expander Die and operate the press to expand the case mouth.

### 4. Seat the Bullet:

- Place a bullet into the expanded case and insert it into the Roll Crimp Seater Die.
- Operate the press to seat the bullet and create a roll crimp.

### 5. Inspect Finished Rounds:

- After reloading, inspect all finished rounds for proper seating and crimping.

## Disposal Instructions

- Dispose of any unused or expired components in accordance with local regulations.
- Do not dispose of ammunition or reloading components in regular household waste.
- Contact local waste management authorities for proper disposal methods.

## Contact Information for Further Support

For any questions or concerns regarding the RCBS 3DIE ROLL CRIMP DIE SET, please refer to the manufacturer's website or customer service for assistance. Ensure you have your product details ready for a quicker response.

By following these safety instructions, you can ensure a safer reloading experience with the RCBS 3DIE ROLL CRIMP DIE SET. Thank you for your attention to safety.
