Safety Instruction Guide for Hornady Die Locking Ring Wrench

Introduction

Thank you for choosing the Hornady Die Locking Ring Wrench. This tool is designed to fit the flats of the Customer Grade dies spindle assembly, lock rings, and die body. To ensure your safety and the proper use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the tool before use for any signs of damage or wear.
- Keep the tool out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when using the wrench.
- Do not use the wrench if you are under the influence of drugs or alcohol.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not exceed the recommended torque specifications when using the wrench.
- Ensure that the locking ring is securely tightened before use.
- Avoid using the wrench in wet or damp conditions to prevent slipping.
- Use the wrench on a stable and flat surface to maintain control.
- Do not modify the wrench in any way, as this may compromise safety.
- If the wrench becomes damaged, discontinue use immediately and seek a replacement.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is clean and free of obstructions.
- Gather all necessary tools and equipment before starting.

2. Using the Wrench:

- Align the wrench with the locking ring or die body.
- Firmly grip the handle and apply force in a controlled manner.
- If resistance is encountered, do not force the wrench. Instead, check for proper alignment and any obstructions.
- After use, clean the wrench to remove any debris or residue.

3. Installation of Locking Rings:

- Place the locking ring onto the die body.
- Use the wrench to tighten the locking ring until secure, ensuring not to overtighten.

4. Maintenance:

- Regularly inspect the wrench for signs of wear or damage.
- Store the wrench in a dry place to prevent rust or corrosion.

Disposal Instructions

- Dispose of the wrench in accordance with local regulations.
- If the wrench is damaged and no longer usable, consider recycling it if possible.
- Do not dispose of the wrench in regular household waste.
