[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [CLYMER 250 SAVAGE NO-GO GAUGE](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100256
- Mfr. No.: NG250SAV
- Cartridge: 250 Savage
- Colour: Steel
- Height: -
- Length: -
- Material: Steel
- Model Number: 250 Savage NO GO
- Style: No Go Gauge
- Weight: -
- Width: -
- Delivery weight: 0.023kg
- Shipping height: 13mm
- Shipping width: 13mm
- Shipping length: 58mm

## NOGO GAUGE Safety Instruction Guide

### Introduction

Thank you for choosing the HEADSPACE GAUGES NOGO CLYMER 250 SAVAGE NOGO GAUGE. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the gauge.

### General Safety Guidelines

- Ensure that the gauge is used only by individuals who are knowledgeable about firearms and headspace measurements.
- Always handle the gauge with care to avoid damage.
- Keep the gauge out of reach of children and vulnerable individuals.
- Regularly inspect the gauge for any signs of wear or damage before each use.
- If the gauge is damaged, do not use it and contact the manufacturer for guidance.
- Follow all local and national regulations regarding firearms and headspace measurements.

### Specific Safety Precautions for Use

- Only use the gauge with compatible firearms and cartridges as specified by the manufacturer.
- Do not attempt to modify or alter the gauge in any way.
- Always wear appropriate safety gear, including eye protection, when using the gauge.
- Ensure that the firearm is unloaded and pointed in a safe direction before measuring headspace.
- Do not exceed the recommended usage limits for the gauge.
- If unsure about the measurement process, seek guidance from a qualified professional.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that you are in a safe and controlled environment.
- Gather all necessary tools and safety equipment before starting.

#### 2. Using the Gauge:

- Identify the correct gauge for your specific firearm and cartridge (in this case, the 250 Savage).
- Insert the NOGO gauge into the chamber of the firearm.
- Attempt to close the bolt. If the bolt does not close, the headspace is within acceptable limits.
- If the bolt closes on the NOGO gauge, it indicates that the headspace is too large and the firearm may be unsafe to use.

#### 3. PostUse:

- Remove the gauge from the chamber after use.
- Clean the gauge according to the manufacturer's recommendations to ensure longevity and accuracy.
- Store the gauge in a safe place, away from moisture and extreme temperatures.

## **Disposal Instructions**

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not throw the gauge in regular trash if it is made of metal or contains hazardous materials.
- Contact local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website.

By following these safety guidelines and instructions, you can ensure the safe and effective use of the HEADSPACE GAUGES NOGO CLYMER 250 SAVAGE NOGO GAUGE. Thank you for prioritizing safety in your firearm practices.
