

# NO-GO HEADSPACE GAUGES - NO GO 7X57MM MAUSER HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [NO GO 7X57MM MAUSER HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100281
- Mfr. No.: NG7X57
- Cartridge: 7 mm Mauser (7 x 57 mm Mauser),257 Roberts
- Color: Steel
- Height: 0.43"
- Length: 1.952"
- Material: Steel
- Model Number: NO GO 7x57mm Mauser
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.43"
- Delivery weight: 0.036kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 58mm

# Clymer NoGo Headspace Gauges Safety Instruction Guide

## Introduction

Thank you for choosing the Clymer NoGo Headspace Gauges. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this precision tool. The Clymer NoGo Headspace Gauges are designed for gunsmiths and firearm enthusiasts to verify that a firearm's chamber does not exceed maximum safe headspace dimensions. By following these guidelines, you can enhance safety and performance during firearm assembly and inspection.

## General Safety Guidelines

- Always handle the gauge with care to avoid injury.
- Ensure you are familiar with the specific firearm you are working on before using the gauge.
- Keep the gauge out of reach of children and vulnerable individuals.
- Regularly inspect the gauge for signs of wear or damage. Do not use if damaged.
- Store the gauge in a safe, dry place when not in use to prevent rust and degradation.
- Follow all local laws and regulations regarding firearms and gunsmithing tools.

## Specific Safety Precautions for Use

- Always wear appropriate protective equipment, such as safety glasses, when using the gauge.
- Use the gauge only for its intended purpose—verifying headspace in firearms.
- Avoid using the gauge in an environment with excessive moisture or debris.
- Ensure that the firearm is unloaded and the action is open before inserting the gauge.
- Do not force the gauge into the chamber. If it does not fit easily, stop and assess the situation.
- Be aware of the potential risks associated with improper headspace, including case ruptures and misfires.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and the action is open.
- Gather all necessary tools and protective equipment.

### 2. Using the Gauge:

- Select the appropriate Clymer NoGo Headspace Gauge for your specific firearm caliber.
- Insert the gauge into the chamber of the firearm.
- Gently push the gauge into the chamber until it stops. Do not force it.
- If the gauge fits easily, the headspace is acceptable. If it does not fit, the chamber may exceed safe dimensions.

### 3. PostUse Care:

- Remove the gauge from the chamber carefully.
- Clean the gauge with a soft cloth to remove any debris or residue.
- Store the gauge in its protective case or designated storage area.

## Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not throw the gauge in regular household waste if it is made from metal; consider recycling options.
- Ensure that the gauge is not accessible to children or unauthorized individuals during disposal.

## Contact Information for Further Support

For any inquiries regarding the Clymer NoGo Headspace Gauges, please refer to the contact information provided with your purchase. Ensure you have the model number and any relevant details on hand when seeking assistance.

By adhering to these safety instructions, you can ensure a safe and effective experience with your Clymer NoGo Headspace Gauges. Always prioritize safety and compliance with local laws while using this precision tool. Thank you for your commitment to responsible gunsmithing practices.
