

GO HEADSPACE GAUGES - CLYMER BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [CLYMER BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100320
- Mfr. No.: G0BLT
- Cartridge: 300 Winchester Magnum, 350 Remington Mag, 375 H&H Magnum
- Colour: Steel
- Height: 0.48"
- Length: 0.94"
- Material: Steel
- Model Number: Belted Magnum GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.48"
- Delivery weight: 0.023kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 60mm

HEADSPACE GAUGES GO CLYMER BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL Safety Instructions

Introduction

Thank you for choosing the HEADSPACE GAUGES GO CLYMER BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these instructions carefully to minimize risks and ensure proper usage.

General Safety Guidelines

- Ensure that the gauge is used only for its intended purpose: measuring the headspace of firearms.
- Always handle the gauge with care to avoid injury or damage.
- Keep the gauge out of reach of children and unauthorized users.
- Inspect the gauge before each use to ensure it is in good working condition.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the gauge.
- Do not use the gauge with firearms that are known to be defective or unsafe.
- Ensure that the firearm is unloaded before measuring headspace.
- Use the gauge in a safe and controlled environment, free from distractions.
- Do not force the gauge into the chamber; it should fit snugly but not require excessive force.
- If you are unsure about the headspace measurement, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and the headspace gauge.

2. Measuring Headspace:

- Insert the gauge into the chamber of the firearm.
- Gently push the gauge until it stops. It should not require excessive force.
- Check the markings on the gauge. If the gauge reads "Go," the headspace is acceptable. If it reads "NoGo," the headspace is too long and requires attention.

3. Post Measurement:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its accuracy and longevity.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding metal and steel products.
- Do not dispose of the gauge in regular household waste. Check for local recycling programs that accept metal products.

Contact Information for Further Support

For any safety inquiries or concerns regarding the HEADSPACE GAUGES GO CLYMER BELTED MAGNUM GO GAUGE HEADSPACE GAUGE STEEL, please refer to the manufacturer's website or contact your local distributor for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your headspace gauge. Thank you for prioritizing safety in your firearms handling practices.
