

NO-GO HEADSPACE GAUGES - CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100321
- Mfr. No.: NGBLT
- Cartridge: 300 Winchester Magnum, 350 Remington Mag, 375 H&H Magnum
- Colour: Steel
- Height: 0.48"
- Length: 0.94"
- Material: Steel
- Model Number: NO GO Belted Magnum
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.48"
- Delivery weight: 0.023kg
- Shipping height: 15mm
- Shipping width: 18mm
- Shipping length: 58mm

Safety Instruction Guide for HEADSPACE GAUGES CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL

Introduction

Thank you for purchasing the HEADSPACE GAUGES CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL. This product is designed to help you accurately measure and test the length of your rifle's chamber, ensuring a safe and precise fit for your barrel. This guide provides essential safety instructions and guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the headspace gauge.
- Ensure that the gauge is compatible with your specific rifle caliber before use.
- Inspect the gauge for any signs of damage or wear before each use.
- Store the gauge in a safe and dry place to prevent damage and ensure longevity.
- Keep the gauge out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the headspace gauge only for its intended purpose: measuring headspace in firearms.
- Always wear appropriate safety gear, such as safety glasses, when using the gauge.
- Ensure that the firearm is unloaded before measuring headspace.
- Do not attempt to modify or alter the gauge in any way.
- If you experience any difficulties during measurement, consult a qualified gunsmith for assistance.
- Be aware of the specific characteristics and operational requirements of your firearm when using the gauge.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is completely unloaded.
- Gather all necessary tools and equipment.

2. Using the Gauge

- Select the appropriate NOGO gauge for your rifle caliber (e.g., 300 Winchester Magnum, 375 H&H Magnum).
- Insert the gauge into the chamber of the firearm.
- Gently close the bolt on the firearm. The bolt should not close completely if the headspace is correct.
- If the bolt closes fully, it indicates that the chamber may be too long and requires adjustment.

3. Post Usage

- Remove the gauge from the chamber after measurement.
- Clean the gauge with a soft cloth to remove any debris or residue.
- Store the gauge in its designated case or location to prevent damage.

Disposal Instructions

- Dispose of the gauge responsibly according to local regulations.
- Do not dispose of the gauge in regular household waste if it is damaged or no longer functional.
- Check with local waste management services for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the HEADSPACE GAUGES CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL, please refer to the manufacturer's contact information provided on the packaging or included documentation.

This safety instruction guide is intended to ensure safe and effective use of the HEADSPACE GAUGES CLYMER NO GO BELTED MAGNUM HEADSPACE GAUGE STEEL. By following these guidelines, you can enhance your safety and the performance of your firearm. Thank you for your attention to these important safety instructions.
