## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [CLYMER NO GO 9MM LUGER HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100341
- Mfr. No.: NG9MMLUG
- Cartridge: 9 mm Luger
- Colour: Steel
- Height: 0.375"
- Length: 0.786"
- Material: Steel
- Model Number: NO GO 9mm Luger
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.375"
- Delivery weight: 0.009kg
- Shipping height: 18mm
- Shipping width: 20mm
- Shipping length: 58mm

# Headspace Gauges NoGo Clymer No Go 9mm Luger Headspace Gauge Safety Instructions

## Introduction

Thank you for choosing the Headspace Gauges NoGo Clymer No Go 9mm Luger Headspace Gauge. This product is designed to accurately measure and test the length of the chamber of your firearm, ensuring a safe and precise chambering process. Please read and follow these safety instructions carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the headspace gauge in a welllit and clean workspace to avoid accidents.
- Ensure that you are familiar with the operation of your firearm before using this gauge.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Keep the gauge out of reach of children and unauthorized users.
- Do not use the gauge if it appears damaged or if the markings are unclear.
- Follow all local laws and regulations regarding firearm safety and usage.

## Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: measuring headspace in firearms.
- Always wear appropriate safety gear, including eye protection, when working with firearms.
- Ensure that the firearm is unloaded before using the gauge.
- Do not attempt to modify or alter the gauge in any way.
- If you are unsure about how to use the gauge, seek assistance from a qualified gunsmith or firearms expert.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Verify that the headspace gauge is clean and free of obstructions.

### 2. Using the Gauge:

- Insert the NoGo gauge into the chamber of the firearm.
- Gently close the bolt on the gauge. If the bolt closes completely, it indicates that the chamber is out of specification and may be unsafe to use.
- If the bolt does not close on the gauge, the chamber is within acceptable limits.

### 3. PostUse:

- After use, remove the gauge from the chamber and clean it according to the manufacturer's instructions.
- Store the gauge in a safe, dry place, away from moisture and extreme temperatures.

## Disposal Instructions

- Dispose of any damaged or unusable gauges according to local regulations for metal waste.
- Do not dispose of the gauge in regular household waste.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For any inquiries regarding safety concerns or product usage, please consult a qualified firearms expert or refer to the manufacturer's guidelines.

## **Conclusion**

By following these safety instructions, you can ensure the proper use of your Headspace Gauges NoGo Clymer No Go 9mm Luger Headspace Gauge. Your safety and the safety of others is of utmost importance. Always prioritize safety and adhere to the guidelines provided in this document.
