

# INDOOR LIGHTING KIT - COMPETITION ELECTRONICS INDOOR LIGHTING KIT

[Shooting Accessories](#) > [Range Gear](#) > [Chronographs](#)

## Eliminates Invalid Readings

Features 72 LEDs that emit invisible, infra-red light for optimum contrast over the optical sensors and reliable, indoor chronograph operation. Eliminates possible invalid readings when using incandescent or fluorescent light sources that can vary in intensity and coverage. Portable and fast setup, just mount the light arcs and connect power. Red "ON" indicator illuminates when operating. 120 VAC adapter included. Will operate on a 24 VDC source (two 12 Volt batteries wired in series). Shipping box protects the unit during storage and transport. Includes complete instructions. Fits all ProChrono model chronographs.

# Indoor Lighting Kit Safety Instruction Guide

## Introduction

Thank you for choosing the Indoor Lighting Kit from Competition Electronics. This product is designed to enhance the performance of your chronograph by providing optimal lighting conditions. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always use the Indoor Lighting Kit according to the provided instructions to prevent accidents or injuries.
- Ensure that the product is installed in a stable location to avoid tipping or falling.
- Keep the Indoor Lighting Kit away from water and damp environments to prevent electrical hazards.
- Check the product regularly for any signs of damage or wear. Do not use if damaged.
- Ensure that children are supervised when using the Indoor Lighting Kit or when it is in operation.
- Dispose of the product responsibly at the end of its life cycle.

## Specific Safety Precautions for Use

- Do not look directly at the LEDs when they are on, as this may cause discomfort or eye strain.
- Avoid using the Indoor Lighting Kit in extreme temperatures or high humidity levels.
- Ensure that the power supply is compatible with the product specifications (120 VAC adapter included or 24 VDC source).
- Do not attempt to repair or modify the Indoor Lighting Kit yourself. Contact a qualified technician if repairs are needed.
- Ensure that the power cord is not pinched or damaged during setup and operation.
- Use the product only for its intended purpose as a lighting accessory for chronographs.

## Instructions for Installation and Usage

1. **Setup Location:** Choose a stable and dry location for the Indoor Lighting Kit setup.
2. **Mounting the Light Arcs:**
  - Securely mount the light arcs in the designated positions according to the instructions provided.
3. **Connecting Power:**
  - Connect the power adapter to a suitable 120 VAC outlet or use a compatible 24 VDC source.
  - Ensure the connection is secure to avoid power interruptions.
4. **Powering On:**
  - Switch on the Indoor Lighting Kit. The red "ON" indicator will illuminate to indicate that the unit is operating.
5. **Operation:**
  - Position your chronograph according to the manufacturer's guidelines and ensure it is aligned with the light arcs for optimal performance.
6. **Storage:**
  - When not in use, store the Indoor Lighting Kit in its shipping box to protect it from damage.

## Disposal Instructions

- Dispose of the Indoor Lighting Kit in accordance with local regulations for electronic waste.
- Do not dispose of the product with regular household waste.
- Check for local recycling programs that accept electronic devices.

## Contact Information for Further Support

For any inquiries or support regarding the Indoor Lighting Kit, please refer to the manufacturer's contact information provided in the product documentation.

By following these safety instructions, you can ensure a safe and effective experience with your Indoor Lighting Kit. Thank you for your attention to these important guidelines.
