

SIG SHR 970 SCOPE BASES - EGW SIG SHR 970 20 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

EGW SIG SHR 970 Scope Bases. Add the versatility of a one-piece Picatinny scope rail to your rifle with no drilling or tapping. Precision machined from extruded aluminum with Picatinny slot-and-rail spacing that allows fast and simple changes to eye relief, plus great flexibility in scope choice. Drilled to fit the factory scope mount holes on the gun's receiver. Accepts Picatinny or Weaver scope rings. Lightweight Tactical mounts have a milled center channel for weight reduction. Full-width cross-slots are gauged to MIL-STD 1913 specs to +/- .002". Machined from ultra-rigid, extruded 6061 T6 aluminum. Includes socket head Torx® screws and wrench. EGW recommends 20 inch lbs of torque and a drip of blue loctite for mounting.

Attributes

- Name: [EGW SIG SHR 970 20 MOA](#)

Safety Instruction Guide for SIG SHR 970 Scope Bases

Introduction

Thank you for choosing the SIG SHR 970 Scope Bases by EGW. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your new product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is suitable for your specific rifle model before installation.
- Always handle firearms and accessories with care and follow all safety protocols.
- Inspect the scope bases for any damage before use. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- In case of any product malfunction or safety concern, cease use immediately and contact the manufacturer.

Specific Safety Precautions for Use

- Only use the scope bases with compatible Picatinny or Weaver scope rings.
- Ensure that the scope is securely mounted to prevent accidents during use.
- Avoid overtightening the screws. Follow the recommended torque specifications.
- Use blue Loctite as instructed to secure the screws and prevent loosening during use.
- Regularly check the scope and base for any signs of wear or loosening.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools including a Torx® wrench and blue Loctite.
- Ensure the rifle is unloaded and pointed in a safe direction.

2. Installation Steps

- Locate the factory scope mount holes on your rifle's receiver.
- Align the EGW SIG SHR 970 Scope Bases with the mount holes.
- Insert the socket head Torx® screws into the holes and handtighten.
- Use the Torx wrench to tighten the screws to the recommended torque of 20 inch lbs.
- Apply a small drop of blue Loctite to each screw to secure them.

3. Scope Mounting

- Attach your Picatinny or Weaver scope rings to the installed scope bases.
- Follow the scope manufacturer's instructions for mounting the scope securely.

4. Final Checks

- Ensure that all screws are tight and the scope is securely mounted.
- Perform a visual inspection to confirm that there are no loose components.

Disposal Instructions

- Dispose of the product responsibly according to local regulations.
- Do not dispose of the product in regular household waste.
- Check for recycling options in your area for aluminum materials.

Contact Information for Further Support

For any questions or concerns regarding your product, please refer to the manufacturer's website or contact their customer support directly.

Please ensure that you follow all safety guidelines and instructions provided in this document to guarantee a safe and enjoyable experience with your SIG SHR 970 Scope Bases. Thank you for your attention to safety.
