

HUNTER REMINGTON 700 ULT MUZZLELOADER LA PICATINNY SCOPE MOUNT - EGW REM 700 ULT MUZZLELOADER LA 1-PIECE PICATINNY BASE 0 MOA

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Introducing the newest addition to the EGW lineup: The Hunter series picatinny scope mount. EGW saw the need for a shorter, lighter, heavy duty, picatinny scope mount and this is what they came up with. After countless hours of prototyping and testing, the Hunter mount was born. Featuring: 7075 T6 aluminum for an extremely durable yet lightweight construction. Type III hardcoat anodizing protects the mount from whatever nature can throw at it. Chamfered edges provide a snag free hunt. A compact overall length sheds 15% of its weight compared to our other Heavy Duty mounts. This mount comes standard with a bevel on both sides making it ambidextrous. The bolt pattern on the Remington 700 Long Action mount fits Long Action Remington 700 rifles (example 30-06, 300 Win mag), as well as the 740 and 40x. Despite what you may have heard, the Remington 700 mount will NOT fit your Howa 1500 or Weatherby Vanguard. The bolt pattern is similar, but the remainder of the mount (ejection port, length, etc.) renders it useless on these two guns. EGW recommends measuring the hole spacing in your receiver to confirm it matches with the dimensions they have published. Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. The channel in the center reduces the overall mass of the mount. Also, in many cases, it will not obstruct usage of factory iron sights. EGW's one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. They machine these in our shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). EGW recommends: 0 MOA - if shooting 0-500 yards 20 MOA - if shooting 500-1000 yards When zeroing your rifle with a 20 MOA mount, EGW recommends zeroing at 200 yards. The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA. This mount fits: Bergara B14 Long Action (#6 Screws) Bergara Premier Long Action (#8 Screws) Remington 700 Long Action Remington 700 Long Action (#8 Screws) Remington 700 Long Action Police Tactical (#8 Screws) Remington 721 Long Action Remington 725 Long Action Christensen Arms Long Action Mauser M18 (All Calibers) Sauer 100 (All Calibers) Sauer 101 (All Calibers)

Safety Instruction Guide for HUNTER REMINGTON 700 ULT MUZZLELOADER LA PICATINNY SCOPE MOUNT

Introduction

Thank you for choosing the HUNTER REMINGTON 700 ULT MUZZLELOADER LA Picatinny Scope Mount. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully to understand the necessary precautions and procedures.

General Safety Guidelines

- Always ensure that the mount is compatible with your specific firearm model before installation.
- Inspect the mount for any visible damage or defects before use.
- Follow all local laws and regulations regarding firearm accessories and usage.
- Keep the mount and all accessories out of reach of children and unauthorized users.
- Report any unsafe products or accidents immediately to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the firearm is unloaded before attaching or detaching the scope mount.
- Use the recommended torque settings during installation to prevent damage to the mount or firearm.
- Do not exceed the specified weight limit of the mount with additional accessories.
- Avoid using the mount in extreme conditions that may compromise its integrity.
- Always wear appropriate safety gear, including eye protection, when handling firearms.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and safe to handle.
- Gather all necessary tools, including a torque wrench and the appropriate screws.

2. Installation Steps

- Align the mount with the bolt pattern on your Remington 700 Long Action rifle.
- Insert the provided screws into the mounting holes.
- Using a torque wrench, tighten the screws to the recommended torque of 20 inch lbs.
- Apply a drop of blue Loctite to each screw for added security (Loctite sold separately).
- Ensure the mount is securely attached and does not move.

3. Usage

- Once installed, mount your scope according to the manufacturer's instructions.
- Adjust the scope for zeroing at the recommended distances based on the mount's MOA settings.
- Regularly check the mount and screws for tightness and integrity before use.

Disposal Instructions

- Dispose of the mount and any packaging materials in accordance with local waste disposal regulations.
- Recycle materials when possible, following your local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the HUNTER REMINGTON 700 ULT MUZZLELOADER LA Picatinny Scope Mount, please refer to the appropriate support channels provided by the manufacturer.

By following these safety instructions, you can ensure a safe and enjoyable experience with your HUNTER REMINGTON 700 ULT MUZZLELOADER LA Picatinny Scope Mount. Thank you for prioritizing safety and compliance with EU regulations.
