

# **HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT - EGW SAVAGE ROUND BACK SA 1-PIECE PICATINNY BASE 0 MOA**

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Introducing the newest addition to the EGW lineup; our Hunter series picatinny scope mount. EGW saw the need for a shorter, lighter, heavy duty, picatinny scope mount and this is what they came up with. After countless hours of prototyping and testing, the Hunter mount was born. Featuring: 7075 T6 aluminum for an extremely durable yet lightweight construction. Type III hardcoat anodizing protects the mount from whatever nature can throw at it. Chamfered edges provide a snag free hunt. A compact overall length sheds 15% of its weight compared to our other Heavy Duty mounts. Due to the change in which receivers have #6 and #8 screws from Savage, EGW recommends you remove and measure one of the screws prior to purchasing this scope mount. This will ensure that you receive the correct screws necessary for your specific application. Some Savage guns (like the .338 Lapua or 110 BA) require 8-40 screws. EGW now has mounts drilled for #8 screws available for all MOAs. They also have a #8 Drill Out Kit available for customers who would like to drill the mounts out themselves. If you have questions about your specific firearm, or need help regarding the specific screw size, you should contact Savage Customer Support at (413) 568-7001 or (800) 370-0708 and supply them with your serial number. This mount is drilled for and provided with 6-48 Hex Head screws. EGW recommends reviewing their listing below for predrilled #8 mounts if you require #8 screws. Their 8-40 and 6-48 screws utilize the same head design, which allows them to use the same countersink in all of their mounts. If you purchased a mount with the incorrect screws, you can purchase the #8 Drill Out Kit. Rifles requiring #8 screws (please check your individual rifle to be sure): 10/110 BA Stealth 10/110 Stealth Evolution 110 Scout 110 Wolverine 10 GRS 110 Tactical 110 Tactical LH 110 Tactical Desert 110 Ultralite Christensen Arms Ridgeline Screw Diameters #6 Screws - .13"" diameter #8 Screws - .16"" diameter This mount does NOT fit the 212 EGW Savage bases will work with any long action round back Savage rifle with an ejection port. It is also compatible with the Stevens Long Actions. The round back on this mount will accommodate rounded receivers, and guns that have an accu-trigger. Savages without an accu-trigger will require our flat back mount (listed separately). This mount comes standard with a bevel on both sides making it ambidextrous. EGW recommends measuring the hole spacing in your receiver to confirm it matches with the dimensions they have published. Picatinny cross slots run the full length of the rail, which gives the shooter flexibility when mounting scope rings and other accessories. EGW one-piece scope mounts are the obvious choice for hunters and tactical shooters alike. This mount is a Picatinny-style base and compatible with Picatinny or Weaver scope rings. EGW machines these in our shop using one of their machining centers. After machining, the mounts are tumbled, sand blasted, and Type III anodized for long lasting durability. Installation: EGW recommends 20 inch lbs of torque and a drip of blue loctite (loctite is sold separately). The entire mount and accessories (from the mounting screws and wrench down to the packaging) are made in the USA. This mount fits: Savage Model 110 Long Action Round Rear Receiver Savage Model 111 Long Action Round Rear Receiver Savage Model 112 Long Action Round Rear Receiver Savage Model 114 Long Action Round Rear Receiver Savage Model 116 Long Action Round Rear Receiver

Stevens Model 200 Long Action Round Rear Receiver This mount does not fit:  
Savage Edge Savage Axis Savage Axis II Savage Model 25 Savage Long  
Actions with Flat Rear Receivers Savage Medium Actions with Flat Rear  
Receivers Savage Long Actions Drilled for #8 Screws

# Safety Instruction Guide for HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT

## Introduction

Thank you for choosing the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT. This guide provides essential safety instructions, installation guidelines, and usage recommendations to ensure the safe operation of your scope mount. Please read this document carefully before use.

## General Safety Guidelines

To ensure the safe use of the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT, adhere to the following guidelines:

- Always handle firearms and accessories with care.
- Ensure that the firearm is unloaded before installation or adjustment.
- Use only the recommended screws and tools for installation.
- Regularly inspect the scope mount for signs of wear or damage.
- Store the scope mount in a dry, cool place away from direct sunlight.
- Follow all local laws and regulations regarding firearm accessories.

## Specific Safety Precautions for Use

When using the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT, please keep the following precautions in mind:

- **Compatibility:** Verify that your firearm is compatible with the scope mount. This mount is designed for Savage Model 110, 111, 112, 114, and 116 Long Action Round Rear Receivers.
- **Screw Size:** Confirm the screw size required for your specific firearm. Some Savage models may require #8 screws, while others use #6 screws.
- **Installation Torque:** Apply a torque of 20 inch lbs when securing the mount. Use a drip of blue Loctite to prevent loosening (Loctite sold separately).
- **Ambidextrous Use:** The mount is designed to be ambidextrous; ensure that it is installed correctly for your preferred shooting orientation.

## Instructions for Installation and Usage

Follow these steps for the proper installation and usage of your scope mount:

### 1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screws.
- Ensure the firearm is unloaded and pointed in a safe direction.

### 2. Measurement:

- Measure the hole spacing in your receiver to confirm compatibility with the mount's specifications.

### 3. Installation:

- Align the scope mount with the receiver's holes.
- Insert the screws into the mount and tighten them using a torque wrench to the recommended 20

inch lbs.

- Apply a drip of blue Loctite to the screws before tightening to prevent loosening.

#### 4. Final Check:

- Inspect the mount to ensure it is securely attached to the firearm.
- Check that the Picatinny cross slots are free of obstructions for mounting scope rings and accessories.

#### 5. Usage:

- Once installed, you can mount your scope or other accessories on the Picatinny rail.
- Regularly check the mount and screws for tightness and integrity during use.

## Disposal Instructions

When the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT reaches the end of its life cycle, please dispose of it responsibly:

- Do not dispose of the mount in regular household waste.
- Check local regulations for proper disposal methods for aluminum and metal components.
- Consider recycling the mount if possible.

## Contact Information for Further Support

For assistance or inquiries regarding the HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT, please reach out to the manufacturer's customer support or refer to the product's official website for more information.

## Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your HUNTER SAVAGE ROUND BACK LONG ACTION PICATINNY SCOPE MOUNT. Always prioritize safety and responsible handling of firearms and accessories. Thank you for your purchase!
