Absolutely Essential For Accurate, Safe, Chamber Work

FORSTER SAAMI RIMLESS HEADSPACE GAUGES The Forster Headspace Gauges are precision instruments designed to help gunsmiths and firearm enthusiasts accurately measure the headspace of rifle chambers, ensuring firearms operate safely and reliably. Proper headspace is critical for preventing malfunctions such as misfires, case ruptures, or excessive wear, which can compromise both performance and safety. These gauges are indispensable when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Engineering: Machined to exacting SAAMI specifications, these gauges provide accurate measurements to verify that a firearm's chamber meets industry standards. Variety of Gauges: Available in "Go," "No-Go," and "Field" configurations, each gauge serves a specific purpose: Go Gauge: Confirms the minimum chamber size, ensuring the firearm will chamber and fire a cartridge safely. No-Go Gauge: Checks that the chamber does not exceed the maximum recommended headspace; the bolt should not close on this gauge. Field Gauge: Used to determine the absolute maximum safe headspace; if the bolt closes on this gauge, the firearm is considered unsafe to shoot. Durable Construction: Crafted from high-grade steel and hardened for longevity, these gauges withstand repeated use without compromising accuracy. Specifications: Material: Hardened steel Dimensions: Specific to each caliber and gauge type Compliance: Manufactured to SAAMI specifications Customer Insights: Customers commend the Forster Headspace Gauges for their precision and reliability. The clear differentiation between "Go," "No-Go," and "Field" gauges allows users to perform comprehensive headspace assessments confidently. The durable construction ensures that the gauges maintain their integrity and accuracy over time, even with frequent use. Users also appreciate the wide range of calibers available, making it easy to find the appropriate gauge for various firearms. Incorporating the Forster Headspace Gauges into your gunsmithing toolkit ensures that your rifle chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [FORSTER PRODUCTS, INC. 284 WINCHESTER NO-GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 319418111
- Mfr. No.: HG0284N
- Cartridge: 284 Winchester, 6 mm - 284 Winchester, 25/284 Winchester, 6.5 x 284 mm Winchester, 30/284 Winchester
- Colour: Steel
- Height: 0.472"
- Length: 1.815"
- Material: Steel
- Model Number: 284 Winchester NO GO
- Style: No Go Gauge

- Weight: 0.116 lbs
- Width: 0.472"
- Delivery weight: 0.068kg
- Shipping height: 5mm
- Shipping width: 91mm
- Shipping length: 69mm
- UPC: 757253004490

Safety Instruction Guide for HEADSPACE GAUGES

Introduction

Thank you for choosing the HEADSPACE GAUGES from Forster Products, Inc. This guide provides essential safety information and instructions to ensure the safe and effective use of your headspace gauge. Please read this document thoroughly before using the product.

General Safety Guidelines

- Ensure that the headspace gauge is used only for its intended purpose: measuring and testing the length of the chamber in firearms.
- Always follow the manufacturer's instructions and specifications when using the gauge.
- Inspect the gauge for any signs of damage or wear before each use. Do not use a damaged gauge.
- Keep the gauge out of reach of children and unauthorized users.
- Use personal protective equipment (PPE) such as safety glasses when handling firearms and gauges.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure the firearm is unloaded before using the headspace gauge.
- Verify that the gauge is the correct type for the specific caliber of the firearm you are testing.
- When chambering a new barrel, doublecheck the gauge measurement to ensure a tight and safe chamber.
- Avoid using excessive force when inserting the gauge into the chamber to prevent damage to both the gauge and the firearm.
- If the gauge does not fit properly, do not attempt to modify it. Consult a professional gunsmith for assistance.
- Always perform headspace checks in a safe environment, away from distractions.
- Familiarize yourself with the specific cartridge types compatible with your gauge to avoid incorrect measurements.

Instructions for Installation and Usage

1. Preparation:

- Confirm that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and ensure you have a clean workspace.

2. Using the Gauge:

- Select the appropriate headspace gauge for the caliber you are using (e.g., 6.5 x 284 mm Winchester).
- Gently insert the NoGo gauge into the chamber of the firearm.
- Ensure the gauge is fully seated in the chamber without forcing it.
- Check the fit of the gauge:
 - If the gauge does not close the bolt, the headspace is acceptable.
 - If the bolt closes on the gauge, the headspace is excessive and may require adjustment.

3. PostUsage:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its accuracy and longevity.

- Store the gauge in a safe and dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not dispose of the gauge in regular household waste. Instead, consider recycling options where available.
- If you have questions about disposal, consult local waste management authorities for guidance.

Contact Information for Further Support

For any questions or concerns regarding the use of your headspace gauge, please refer to the manufacturer's contact information provided with your product. Ensure you have the product details ready for efficient assistance.

By following these guidelines and instructions, you can ensure the safe and effective use of your HEADSPACE GAUGES from Forster Products, Inc. Always prioritize safety and compliance with local regulations when handling firearms and related equipment.
