# Safety Instruction Guide for .0025" Stainless Steel Brushing Wheels

## Introduction

Thank you for choosing the .0025" Stainless Steel Brushing Wheels by Grobet File Co. of America Inc. These wheels are designed for effective carding between coats when rust bluing or using the Hot Water Method with Dicropan IM Bluing Solution. To ensure your safety and the best performance of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the brushing wheels in accordance with the manufacturer's instructions.
- Ensure the brushing wheels are compatible with your equipment.
- Inspect the brushing wheels for any damage before use.
- Keep the brushing wheels out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear appropriate PPE, including safety goggles, gloves, and a dust mask to protect against debris and dust.
- **Work Area:** Ensure your work area is clean, dry, and welllit. Remove any flammable materials from the vicinity.
- **Equipment Compatibility:** Use the brushing wheels only with compatible tools and ensure they are securely attached before operation.
- **Maximum RPM:** Do not exceed the maximum RPM of 3500 during use to prevent accidents or damage.
- **Avoid Contact:** Do not touch the brushing wheels while in motion. Allow them to come to a complete stop before handling.

## Instructions for Installation and Usage

### Installation

1. **Preparation:** Ensure that your tool is turned off and unplugged before installation.
2. **Drilling:** If necessary, drill a hole through the 2" (51mm) diameter wood center to fit your specific tool.
3. **Attachment:**
  - For the 2row wheels, ensure the  $\frac{1}{2}$ " (13mm) wide face is properly aligned.
  - For the 4row wheels, ensure the  $1\frac{1}{4}$ " (32mm) wide face is properly aligned.
4. **Secure Fit:** Ensure that the brushing wheel is securely attached and that there is no wobble or play.

### Usage

1. **Preparation:** Before starting, ensure that you have your PPE on and that your work area is clear.
2. **Operation:**
  - Turn on your tool and gradually increase to the desired speed, not exceeding 3500 RPM.
  - Use gentle pressure when carding to avoid damaging the surface of the item being worked on.
3. **PostUse:** After completing your work, turn off the tool and allow the brushing wheel to come to a complete stop before removing it.

## **Disposal Instructions**

- Dispose of any damaged or worn brushing wheels in accordance with local regulations.
- Do not dispose of the brushing wheels in regular household waste.
- Check with your local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of this product, please refer to the manufacturer's contact information provided with your purchase. It is important to have access to support for safe and effective product use.

By following these safety instructions, you ensure a safe working environment and maximize the performance of your .0025" Stainless Steel Brushing Wheels. Thank you for your attention to safety and for choosing Grobet File Co. of America Inc.
