

HANDALL BEAVERTAIL GRIP SLEEVES - HOGUE HANDALL BEAVERTAIL GRIP SLEEVE BLACK GLOCK 42, 43

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

The new grip sleeves are designed to fit specific polymer pistols now on the market. The Beavertail Grip Sleeve line has been engineered with models for precision fits on specific firearms. The initial offerings in this series has sleeves designed for perfect fits on three sizes of polymer firearms. While each sleeve has been created for a precise fit on specific polymer framed firearms, they also alternatively fit many other similarly sized firearms with a fully functional and aesthetic fit. The Beavertail Grip Sleeves are installed by slipping them over the frame of the firearm until seated into perfect position. Once installed, the HandALL sleeve provides a single finger groove for instinctive handling of the firearm. The finger groove leads into a gentle palm swell that has been carefully designed to fit naturally in the hand. The beavertail built into the grip sleeve rises high along the backstrap of the frame giving full rubber contact with the hand allowing a higher hand-placement on the grip without the fear of the slide biting the skin between the thumb and the trigger finger. In addition to protection and comfort, the beavertail also cushions the hand during recoil. The HandALL is built from a long-lasting durable thermoplastic elastomer compound. This rubber ages very gracefully and keeps a firm, tacky feel throughout the life of the grip. It will not harden, split or crack with age or usage. The grip sleeve is textured with Hogue's familiar Cobblestone™ texture, a series of small circular bumps that provide an efficient non-slip, non-irritating grip on the rubber.

Attributes

- Name: [HOGUE HANDALL BEAVERTAIL GRIP SLEEVE BLACK GLOCK 42, 43](#)
- Manufacturer: [HOGUE](#)
- Product no.: 408000176

HANDALL BEAVERTAIL GRIP SLEEVES Safety Instruction Guide

Introduction

Thank you for choosing the HANDALL BEAVERTAIL GRIP SLEEVES. This product is designed to enhance the grip and comfort of your Glock 42 and 43 firearms. This guide provides essential safety instructions and information to ensure the safe and effective use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or adjusting the grip sleeve.
- Do not use the grip sleeve as a substitute for proper firearm handling and safety practices.
- Regularly inspect the grip sleeve for wear or damage. Replace immediately if any issues are found.
- Keep the grip sleeve out of reach of children and unauthorized users.
- Store the grip sleeve in a safe location when not in use.

Specific Safety Precautions for Use

- Ensure that your hands are clean and dry before handling the grip sleeve to avoid slippage during installation.
- When installing the grip sleeve, do not force it onto the firearm. If resistance is felt, doublecheck the alignment and fit.
- Be mindful of the beavertail design; it is intended to protect your hand from the slide. Ensure it is properly positioned to avoid any injuries.
- Avoid using the grip sleeve with firearms that it is not specifically designed for, as this may compromise safety and performance.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded.
- Hold the grip sleeve with the finger groove facing towards you.
- Carefully slide the grip sleeve over the frame of the firearm, ensuring it aligns with the trigger guard and backstrap.
- Push the sleeve down until it is fully seated in position. Ensure that the beavertail is properly aligned along the back of the grip.
- Check that the grip sleeve is securely attached and does not move when pulled.

2. Usage:

- Once installed, hold the firearm using the finger groove for improved control.
- The gentle palm swell should fit naturally in your hand, providing comfort and stability.
- During use, be aware of the grip sleeve's presence and ensure it remains securely in place.

Disposal Instructions

- Dispose of the grip sleeve in accordance with local regulations for rubber and plastic waste.
- Do not incinerate the grip sleeve as it may release harmful substances.
- If the grip sleeve is damaged or no longer needed, ensure it is disposed of in a way that prevents accidental use by unauthorized individuals.

Contact Information for Further Support

For any questions or concerns regarding the HANDALL BEAVERTAIL GRIP SLEEVES, please refer to the manufacturer's contact details provided on the packaging or product documentation.

Thank you for your attention to these safety guidelines. Your safety and the safety of others are paramount when handling firearms and associated accessories. Please ensure you follow all instructions carefully to maximize both safety and performance.
