

# S&W K OR L FRAME LASER ENHANCED GRIPS - HOGUE RED LASER RUBBER GRIPS, BLACK

[Optics & Mounting](#) > [Electronic Sights](#) > [Laser Sights](#)

Handgun grips with a laser sight built into them are nothing new. What is new is Hogue's Laser Enhanced (LE) rubber grips for Smith & Wesson K- and L-frame revolvers. This is the classic Hogue rubber boot grip that has taken the sting out of shooting S&W six-guns for generations, only now it packs a built-in red aiming laser. For the serious techies, it's a 630-670nm <5mW Class 3R red laser. For the rest of us, it's a simple, ultra-reliable, supremely instinctive way to land your shots on target - fast. Of course, the LE grip is a Hogue, so it fits your hand like a glove, and you'll forget about the laser until your hand settles in its natural spot and automatically activates the control pad. Except for a small protrusion along the side of your Smith's frame (just ahead of the grip), the Hogue LE grip is no bulkier than a standard grip. You can continue to stow your S&W K- /L-frame wheelgun in the same holster you've been using.

Heavy-duty 4mm laser diode stands up to the recoil of your heaviest .357 Magnum loads Programmable laser output (more about this below) Large contact area on button - when you grasp the gun the laser is ON Easy to adjust for windage & elevation Master lockout switch prevents accidental laser activation & battery drain Runs on two CR-2032 button cell batteries Fits Smith & Wesson K- / L-frame with round butt ONLY The Hogue engineering team has one more trick up their sleeve with the Laser Enhanced grips: programmability. You can program the laser's output to suit your specific situation. Choose from 3 modes: steady, flashing (twice per second), and "stealth." Stealth mode gives you 3 quick flashes each time you press the activation button; press and HOLD the button and the laser switches into steady mode. There are 4 brightness levels to choose from, too: 100%, 80%, 60% and 40%. All in all, Hogue's Laser Enhanced grips provide a major improvement to the shooting comfort, controllability, and accuracy of your S&W revolver.

## Attributes

- Name: [HOGUE RED LASER RUBBER GRIPS, BLACK](#)
- Manufacturer: [HOGUE](#)
- Product no.: 408000200
- Mfr. No.: 19080
- Battery: CR-2032
- Colour: Black
- Laser Color: Red
- Laser Output: 5mW
- Material: Rubber
- Model: K Frame,L Frame
- Style: Lasergrip
- Weapon type: Smith & Wesson
- Delivery weight: 0.191kg
- Shipping height: 57mm
- Shipping width: 84mm
- Shipping length: 146mm
- UPC: 743108190807

## **Item details**

# Safety Instruction Guide for S&W K or L Frame Laser Enhanced Grips Hogue Red Laser Rubber Grips, Black

## Introduction

Thank you for choosing the S&W K or L Frame Laser Enhanced Grips by Hogue. These grips are designed to enhance your shooting experience with integrated laser technology. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the grips and laser for any signs of damage or wear.
- If you notice any malfunction or damage, cease use immediately and refer to the manufacturer for support.
- Follow all local laws and regulations regarding firearms and laser devices.
- Be aware of your surroundings when using the laser to avoid accidents.

## Specific Safety Precautions for Use

- **Laser Safety:**

- Avoid direct eye exposure to the laser beam.
- Do not point the laser at anyone or any reflective surfaces.

- **Battery Safety:**

- Use only CR2032 batteries as specified.
- Dispose of used batteries properly according to local regulations.
- Do not attempt to recharge nonrechargeable batteries.

- **Installation Safety:**

- Ensure the grips are securely attached to the firearm before use.
- Follow the installation instructions carefully to avoid improper fitting.

- **Environmental Safety:**

- Do not expose the grips to extreme temperatures or moisture.
- Store the firearm with grips in a cool, dry place when not in use.

## Instructions for Installation and Usage

### Installation Instructions

1. **Remove the Old Grips:**

- Use a screwdriver to remove the screws securing the old grips.
- Gently detach the old grips from the frame.

## 2. Attach the New Grips:

- Align the Hogue Laser Enhanced Grips with the frame of your S&W K or L frame.
- Secure the grips in place using the provided screws, ensuring they are tightened but not overtightened.

## 3. Battery Installation:

- Open the battery compartment located on the grip.
- Insert two CR2032 batteries, ensuring the positive (+) and negative (-) ends are aligned correctly.
- Close the battery compartment securely.

## Usage Instructions

### • Activating the Laser:

- Grasp the firearm naturally to automatically activate the laser.
- For manual activation, press the control pad located on the grip.

### • Adjusting the Laser:

- Use the adjustment controls to set windage and elevation as needed.

### • Programming the Laser:

- Choose from three modes: steady, flashing (twice per second), and stealth mode.
- Adjust brightness levels to 100%, 80%, 60%, or 40% as required.

## Disposal Instructions

- Dispose of the product in accordance with local waste disposal regulations.
- Remove batteries before disposal and recycle them properly.
- Do not throw the product in general waste; check for designated electronic waste disposal facilities.

## Contact Information for Further Support

For any questions or concerns regarding the S&W K or L Frame Laser Enhanced Grips, please refer to the manufacturer's customer support resources. Always ensure that you have the latest safety information and product updates.

## Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your S&W K or L Frame Laser Enhanced Grips by Hogue. Always prioritize safety and compliance with local laws when using this product. Thank you for your attention to these guidelines.
