## Recoil-Cushioning Rubber Grips With Built-In Programmable Laser Sight

Grips for the 1911 with a built-in laser sight are nothing new. What is new is Hogue's Laser Enhanced (LE) rubber grips for the 1911 Government Model / Commander. These are the classic Hogue wraparound finger-grooved rubber grips that have taken the sting out of shooting the "Forty-Five" for generations, only now they pack a built-in red aiming laser. For the serious techies, it's a 630-670nm <5mW Class 3R red laser. For the rest of us, LE grips provide a simple, ultra-reliable, supremely instinctive way to land your shots on target - fast. Hogue Laser Enhanced 1911 grips bring something else to the table: programmability. You can program the laser's output to suit your specific situation. Choose from 3 modes: steady, flashing (twice per second), and "stealth." Stealth mode gives you 3 quick flashes each time you press the activation button; press and HOLD the button and the laser switches into steady mode. There are 4 brightness levels to choose from, too: 100%, 80%, 60% and 40%. Other features: Pebble-textured synthetic rubber over reinforced poly core Heavy-duty 4mm laser diode stands up to the recoil of your heaviest .45 ACP +P loads Programmable laser output (more about this below) Large contact area on button - when you grasp the gun the laser is ON Easy to adjust for windage & elevation Master lockout switch prevents accidental laser activation & battery drain Runs on two CR-2032 button cell batteries (included) Fits full-size 1911 Government Model & Commander and clones Like all Hogue grips, LE grips fit your hand like a glove, and you'll forget about the laser until your hand settles in its natural spot and automatically activates the control pad. Except for a small protrusion along the side of the frame above the grip, Hogue LE grips are no bulkier than standard grips. You can continue to stow your 1911 in your favorite holster.

## Attributes

- Name: [RED LASER RUBBER GRIPS, BLACK](#)
- Manufacturer: [HOGUE](#)
- Product no.: 408000201
- Mfr. No.: 45080
- Battery: CR-2032
- Color: Black
- Laser Color: Red
- Laser Output: 5mW
- Make: 1911
- Material: Rubber
- Model: Government
- Style: Lasergrip
- Delivery weight: 0.143kg
- Shipping height: 57mm
- Shipping width: 84mm
- Shipping length: 146mm
- UPC: 743108450802

## Item details

Made in USA

This product contains a battery.

US export classification: 0A504.f

# Safety Instruction Guide for Hogue Laser Enhanced Grips for 1911 Government Model / Commander

## Introduction

Thank you for choosing the Hogue Laser Enhanced Grips for your 1911 Government Model or Commander. These grips feature a built-in red laser sight for improved accuracy and ease of use. This safety instruction guide provides essential information to ensure the safe and effective use of this product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the grips by following all instructions and guidelines.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product.
- **Online Shopping:** If purchased online, ensure the platform complies with safety requirements.
- **Special Consumer Focus:** Extra caution is advised when used by children or individuals with limited experience.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point.
- **Rapid Alerts:** Check the EU's Safety Gate platform for updates on unsafe products.

## Specific Safety Precautions for Use

- **Laser Safety:**
  - Avoid direct eye exposure to the laser beam.
  - Do not point the laser at reflective surfaces or at people.
- **Battery Safety:**
  - Use only CR2032 button cell batteries as specified.
  - Do not mix old and new batteries or different brands.
  - Dispose of batteries properly and in accordance with local regulations.
- **Installation Safety:**
  - Ensure the firearm is unloaded before installing the grips.
  - Follow installation instructions carefully to avoid improper fitting.
- **Handling and Storage:**
  - Store the firearm in a secure location, away from children and unauthorized users.
  - Always follow safe firearm handling practices.

## Instructions for Installation and Usage

### Installation Instructions

1. **Preparation:**
  - Ensure the firearm is unloaded and pointed in a safe direction.
  - Gather necessary tools, if required.
2. **Remove Old Grips:**
  - Unscrew and remove the existing grips from the firearm.
3. **Install New Grips:**
  - Align the Hogue Laser Enhanced Grips with the grip frame.
  - Securely screw in the grips, ensuring they are firmly attached but not overtightened.
4. **Battery Installation:**
  - Open the battery compartment as per the instructions.
  - Insert the CR2032 batteries, ensuring correct polarity.

## 5. Test the Laser:

- Press the activation button to check the laser functionality.
- Adjust for windage and elevation as needed.

## Usage Instructions

- **Laser Activation:**
  - The laser activates when the button is pressed.
  - Press and hold the button for steady mode; release for flashing or stealth mode.
- **Brightness Adjustment:**
  - Cycle through brightness levels (100%, 80%, 60%, 40%) using the activation button.
- **Safety Lock:**
  - Use the master lockout switch to prevent accidental activation when not in use.

## Disposal Instructions

- **Disposing of Grips:**
  - Dispose of the grips in accordance with local waste management regulations.
- **Battery Disposal:**
  - Follow local regulations for the disposal of batteries. Do not dispose of them in household waste.

## Contact Information for Further Support

For any questions regarding the safety, installation, or usage of your Hogue Laser Enhanced Grips, please refer to the manufacturer or your point of purchase for assistance.

By following these guidelines, you can ensure the safe operation of your Hogue Laser Enhanced Grips and enhance your shooting experience. Always prioritize safety and responsible handling of your firearm.
