

HANDALL BEAVERTAIL GRIP SLEEVES - HOGUE HANDALL BEAVERTAIL GRIP SLEEVE BLK SPRINGFIELD XD-E 9MM/45

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

The new grip sleeves are designed to fit specific polymer pistols now on the market. The Beavertail Grip Sleeve line has been engineered with models for precision fits on specific firearms. The initial offerings in this series has sleeves designed for perfect fits on three sizes of polymer firearms. While each sleeve has been created for a precise fit on specific polymer framed firearms, they also alternatively fit many other similarly sized firearms with a fully functional and aesthetic fit. The Beavertail Grip Sleeves are installed by slipping them over the frame of the firearm until seated into perfect position. Once installed, the HandALL sleeve provides a single finger groove for instinctive handling of the firearm. The finger groove leads into a gentle palm swell that has been carefully designed to fit naturally in the hand. The beavertail built into the grip sleeve rises high along the backstrap of the frame giving full rubber contact with the hand allowing a higher hand-placement on the grip without the fear of the slide biting the skin between the thumb and the trigger finger. In addition to protection and comfort, the beavertail also cushions the hand during recoil. The HandALL is built from a long-lasting durable thermoplastic elastomer compound. This rubber ages very gracefully and keeps a firm, tacky feel throughout the life of the grip. It will not harden, split or crack with age or usage. The grip sleeve is textured with Hogue's familiar Cobblestone™ texture, a series of small circular bumps that provide an efficient non-slip, non-irritating grip on the rubber.

Attributes

- Name: [HOGUE HANDALL BEAVERTAIL GRIP SLEEVE BLK SPRINGFIELD XD-E 9MM/45](#)
- Manufacturer: [HOGUE](#)
- Product no.: 408000223

HANDALL BEAVERTAIL GRIP SLEEVES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the HandALL Beavertail Grip Sleeves by Hogue. This product is designed to enhance the comfort and control of your firearm. It is essential to read and understand this safety instruction guide to ensure safe and effective use of the grip sleeves.

General Safety Guidelines

- Always handle firearms with care and follow all safety protocols.
- Ensure the firearm is unloaded before installing or adjusting the grip sleeve.
- Regularly check the grip sleeve for signs of wear or damage.
- Keep the grip sleeve and firearm out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the grip sleeve is compatible with your firearm model before use.
- Inspect the grip sleeve for any defects or damage prior to installation.
- Avoid using the grip sleeve if it shows signs of wear, such as cracking or splitting.
- Do not modify the grip sleeve in any way, as this may compromise safety.
- Always maintain a firm grip on the firearm when using it, ensuring that your fingers are positioned correctly.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Slip the grip sleeve over the frame of the firearm.
- Adjust the sleeve until it is seated in the correct position on the firearm's frame.
- Ensure the sleeve fits snugly and securely without any gaps.

2. Usage:

- Grip the firearm firmly using the HandALL sleeve.
- Utilize the finger groove for instinctive handling.
- Ensure your hand is placed high on the grip to avoid contact with the slide.
- Use the grip sleeve during training and practice to familiarize yourself with its feel and handling.

Disposal Instructions

- Dispose of the grip sleeve responsibly in accordance with local regulations.
- Do not incinerate the grip sleeve as it may release harmful substances.
- If the grip sleeve is damaged or no longer in use, consider recycling it if possible.
