

# PRO 700 LITE SA STOCKS - MAGPUL PRO 700 LITE SA ADJUSTABLE STOCK FOR REMINGTON 700 SA BLACK

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

Maintaining the most important features of their original Pro 700, the Pro 700 Lite SA strikes a balance between features and cost without sacrificing performance. As the name suggests, the Pro 700 Lite SA blends the original Pro 700 Chassis and the PRS Lite stock to create a simplified rear end with a strong foundation – passing on the value and weight savings to you. The streamlined design weighs in at 4.4 pounds, a full pound less than its predecessor, but still packs a complete set of features that elevate your rifle's performance. The Pro 700 Lite SA provides an optimized shooter interface with 0.8" of comb height and 1.4" of LOP adjustments. The low-profile rubber butt-pad is adjustable for height and cant, providing an extremely stable interface with the shooter's shoulder. Sling attachment options include an ambidextrous 1.25" footman's loop, a reversible QD sling swivel cup, and space for another optional QD sling swivel cup. The injection-molded polymer grip has a 5-degree forward edge sweep and enlarged palm swell with a 7-degree aft edge sweep for enhanced user comfort, and it includes a 0.75" fore/aft adjustment range using a common hex wrench. An additional grip is included, offering a more aggressive sweep and enlarged palm swell for the shooter who is more inclined to a less vertical grip interface (8-degree forward / 20-degree aft edge sweep). The Pro 700 Lite SA surrounds its billet aluminum chassis with Magpul polymer for enhanced ergonomics, strength, and sound mitigation. Built around the user, it is fully ambidextrous at the swap of a bolt retainer plate, and the vertical grip can be adjusted for various trigger reaches. The included large trigger guard can accommodate usage with gloves and aftermarket triggers. The AICS-pattern magazine well features an ambidextrous mag release and has a front barricade stop to prevent the rifle from resting on the magazine when using barricade support. Up front, there are numerous M-LOK slots (left-6/right-6/bottom-7) allowing you to mount whatever accessories your loadout calls for. Extremely versatile and adaptable, the Pro 700 Lite SA turns your short action 700-pattern rifle into the perfect bolt action precision machine. Made in the USA. Fully machined Type III hard anodized aluminum forend and V-bedding block Compatible with left and right-handed actions with swappable QD sling swivel and bolt retainer plates Comb height, LOP, and butt-pad adjustment from PRS Lite Integrated AICS pattern magazine well optimized for PMAG® 5 & PMAG® 10 7.62 AC magazines as well as most other AICS pattern short action magazines Low-profile, anti-snag ambidextrous magazine release is made of Melonite® treated steel A large trigger guard allows for use with gloves and accepts most factory and aftermarket curved or flat triggers Injection molded polymer grip with 5 degree forward edge sweep and enlarged palm swell with 7 degree aft edge sweep Additional grip option included with a more aggressive angle (8 degree forward / 20 degree aft edge sweep) Grips adjustable 0.75" fore and aft

# Safety Instruction Guide for PRO 700 LITE SA Adjustable Stock

## Introduction

Thank you for choosing the PRO 700 LITE SA Adjustable Stock for your Remington 700 Short Action rifle. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations regarding firearms.
- Always treat firearms as if they are loaded, even if you believe they are not.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and stock in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the stock and rifle for any signs of wear or damage before use.
- Be aware of your surroundings and ensure that you have a clear shooting area.

## Specific Safety Precautions for Use

- Only use the PRO 700 LITE SA Adjustable Stock with compatible Remington 700 Short Action rifles.
- Ensure that all components are securely attached before use.
- Adjust the comb height and length of pull (LOP) to fit your body and shooting style before firing.
- Use gloves when handling the stock to prevent any injuries from sharp edges or moving parts.
- Do not exceed the recommended weight limit for accessories mounted on the stock.
- Be cautious when using the stock with various sling attachments to prevent accidental detachment.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the firearm is unloaded and the bolt is removed.
- Align the PRO 700 LITE SA Adjustable Stock with the rifle's action.
- Securely attach the stock using the provided screws and tools, ensuring a tight fit.
- Check that all mounting points are secure before proceeding.

### 2. Adjustments:

- To adjust the comb height, loosen the adjustment screws and set to the desired height before retightening.
- For LOP adjustments, slide the butt pad to the desired length and secure in place.
- Adjust the rubber butt pad for height and cant to achieve a comfortable fit against your shoulder.

### 3. Usage:

- When ready to shoot, ensure the stock is securely mounted and all adjustments are locked in place.
- Maintain a proper shooting stance and grip the rifle firmly.
- After use, clean and inspect the stock and rifle to ensure they remain in good condition.

## Disposal Instructions

- Dispose of the PRO 700 LITE SA Adjustable Stock in accordance with local regulations.
- If the stock is damaged beyond repair, consider recycling the polymer components where facilities exist.
- Do not dispose of the stock in regular household waste if it contains any hazardous materials.

## Contact Information for Further Support

For any inquiries or concerns regarding the PRO 700 LITE SA Adjustable Stock, please refer to the manufacturer's website or customer support channels.

**Note:** This guide is designed to comply with the EU General Product Safety Regulation (GPSR) to ensure safe use of the product. Always prioritize safety and responsible handling of firearms.
