

LV-119 FRONT OVERT PLATE BAG - SPIRITUS SYSTEMS LV-119 FRONT OVERT PLATE BAG (MEDIUM), RANGER GREEN

[Home](#)

NOTE: The LV/119 O V E R T Front Plate Bag requires a Rear Bag and Cumberbund for proper operation. The LV/119 SYSTEM is a group of products that work together to give end-users the ability to scale their equipment to their current needs. The fact that this is a cohesive system means that users can mix and match accessories in most cases. For example: One could take a C O V E R T Front or Rear Plate bag and use it with an O V E R T Front and Rear Plate Bag. Users may also also cross pollinate cummerbunds, shoulder covers, and other parts that will be available. The SYSTEM encompasses many parts, some of which are currently available and some that are in development, such as Back Panels of various types, MOLLE cummerbunds, First Spear TUBES™ integrations, and different placards. The O V E R T shares the same profile as the C O V E R T plate bags but with modifications that make it more suitable for high profile operations. The front bag features a 3 Row / 4 Column MOLLE field that doubles as a 6" x 3" Velcro Field. This may be used to attach End User Devices (EUDs), such as those made by KAGWERKS or Juggernaut Defense. The Velcro may be used to mount placards, patches, and IR identifiers. The MOLLE can also be used to mount administrative pouches, frag grenade pouches, or anything else users may require quick need access to. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our TUBES™ cummerbund. Placard and Chest Rig Integration. All LV/119 Plate Bags offer placard and chest rig integration via removable 1 Inch ITW NEXUS Buckles. These clips are removable, allowing users to reduce the signature of the plate bag if it is being worn under a cover shirt or being utilized in a low-profile role. Push To Talk Support. Each O V E R T front plate bag comes standard with a PTT/Porkchop Loop on either side. Communication Cable Routing. The Modern Warfighter and Law Enforcement Officer has a radio. To date, the majority of manufacturers have not taken end-user communications needs in to their design considerations - we endeavor to break that paradigm. The O V E R T front bag offers open shoulders to facilitate comms cable routing inside the plate bags and over the shoulders. It also offers small routing points by the 1 Inch ITW NEXUS buckles on the chest - easily accommodating PTT cable routing. Plate Fitment. The carrier was designed to fit United States Standard Issue SAPI cut plates, but it will fit other cuts as well as long as they fit within the specifications listed below. The bags were built to accommodate "thicker" plates, but they will not fit plates do not fall within the measurements listed. Medium -10" x 12.5" Large - 10.25" x 13.25" Extra Large- 11" x 14.00" Thickness - MAXIMUM of 1.20" NOTE: The LV119 Front Plate Bag is part of the LV119 Plate Carrier System. This item does not include a Rear Plate Bag, Cumberbund, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

Safety Instruction Guide for LV119 Front Overt Plate Bag

Introduction

Thank you for choosing the LV119 Front Overt Plate Bag by Spiritus Systems. This guide provides essential safety instructions and usage information to ensure the safe operation of your product. Please read this guide carefully before use and keep it for future reference.

General Safety Guidelines

- Ensure that you have the appropriate Rear Bag and Cummerbund for proper operation.
- Familiarize yourself with the product features and specifications before use.
- Regularly inspect the bag for any signs of wear or damage.
- Ensure that the bag is used in accordance with the manufacturer's guidelines to maintain safety and functionality.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Compatibility:** The LV119 Front Overt Plate Bag is designed to fit United States Standard Issue SAPI cut plates. Ensure that any plates used are within the specified sizes:
 - Medium: 10" x 12.5"
 - Large: 10.25" x 13.25"
 - Extra Large: 11" x 14.00"
 - Thickness: Maximum of 1.20"
- **Caution with Accessories:** When using accessories such as placards or pouches, ensure they do not interfere with the bag's functionality or safety.
- **Communication Equipment:** Ensure that communication cables are routed properly to avoid snagging or damage during use.
- **Proper Fit:** Ensure the bag fits securely on your body to prevent movement during use, which could lead to injury.

Instructions for Installation and Usage

1. Assembly:

- Attach the Rear Bag and Cummerbund to the LV119 Front Overt Plate Bag for proper functionality.
- Use the provided sewn loops on the sides for attaching First Spear TUBES™.

2. Mounting Accessories:

- Utilize the 3 Row / 4 Column MOLLE field for attaching pouches, placards, and other accessories.
- Ensure that any Velcro attachments are securely fastened.

3. Communication Setup:

- Use the PTT/Porkchop Loop located on either side of the front plate bag for communication devices.
- Route communication cables through the open shoulders and small routing points near the buckles to prevent tangling.

4. Fitting Plates:

- Insert the appropriate SAPI cut plates into the designated compartments of the bag.
- Ensure that the plates fit snugly within the dimensions provided.

5. Wearing the Bag:

- Adjust the cummerbund and shoulder straps for a secure and comfortable fit.
- Ensure that the bag does not shift during movement.

Disposal Instructions

- Dispose of the LV119 Front Overt Plate Bag in accordance with local regulations.
- If the bag is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the bag in regular household waste if it contains any hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the LV119 Front Overt Plate Bag, please consult the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure the safe and effective use of your LV119 Front Overt Plate Bag. Thank you for your attention to safety and for choosing Spiritus Systems.
