

LUNCHBOX POUCH MK2 - COYOTE BROWN

[Home](#)

Lunchbox Pouch Mk2 The Spiritus Systems Lunchbox pouch is a versatile breaching pouch that is mounted to the bottom of the front bag of a Spiritus Systems LV/119 Plate Carrier. It was created with exclusive input from the Direct Action Resource Center (DARC), located in Arkansas. DARC is a premiere tactics and training center with the leading breaching program in the country. Their instructors have ages of practical real world experience in explosive breaching, both the military and law enforcement realms. Spiritus Systems worked closely with DARC and applied this first hand knowledge to create a product specifically for the explosive breaching community. The Lunchbox mates well with the DARC breaching curriculum and theory and is available for use in DARC breaching courses. Larger than its little brother the SACK Pouch, The Lunchbox was designed to carry large and bulky items with ease. For breachers the pouch is incredibly versatile, allowing the breacher to carry an array of charges onto the objective in a clean and easy to reach package. It also consolidates charges inside of your explosive safely, so that they can be accessed at a moment's notice and mounted quickly to your plate carrier. The Lunchbox can accommodate multiple Roll-Ups, two 8"x 8" Pucks or even a firehose charge. The back side of the pouch features 5 rows of elastic loops. These loops can be used to secure multiple Interior Door Charges for easy access. The pouch features 2 elastic shock cord loops and toggles that allow the pouch to be rolled up and stored in a low profile when not in use. This makes it a great pouch for assaulters who may need to conduct Tactical Site Exploitations or carry extra breaching equipment for the breaching cell. The pouch features a half zip design, which means that your equipment will not easily fall out of the pouch even if the zipper is left unsecured. The front of the pouch features a zippered stash pocket for stashing and organizing smaller items like det cord remnants or firing device plungers. The inside features soft loop Velcro on both sides. This makes the Lunchbox very dynamic, giving you the ability to use our Velcro Insert Suite to organize mission essential equipment. It also features two slide-locks that make it easy to adjust the tension of the elastic loops hanging below, as well as two tie-down loops for securing sensitive equipment. The two grommet holes on the bottom aid with drainage of the pouch, if submersion occurs. The Lunchbox is designed to fit onto the bottom of our Micro Fight Chest Rig or plate carrier or rig that accommodates standard hook and loop, making it a versatile choice for those changing load-outs often. Simply pull this off one kit and add it to another. The bottom of the pouch features two elastic loops that can be adjusted to hold a tourniquet or other equipment that you may need to rapidly deploy. If bottom carry doesn't fit your mission needs, you can easily remove and reinstall the loops as necessary. Velcro Attachment measures 9" x 4" NOTE: This is an optional accessory of a Spiritus Systems LV/119 Plate Carrier build. To build a COMPLETE plate carrier you will need to select AT LEAST ONE of each of these items: Spiritus Systems Front Plate Bag Spiritus Systems Rear Plate Bag Spiritus Systems Shoulder Covers Spiritus Systems Cumberbund Set Note: This product may be shown with optional accessories. Safety Instruction Guide for LUNCHBOX POUCH MK2 COYOTE BROWN

Introduction

Thank you for choosing the LUNCHBOX POUCH MK2 COYOTE BROWN from Spiritus Systems. This versatile breaching pouch is designed for use with Spiritus Systems LV/119 Plate Carrier and is created with input from the Direct Action Resource Center (DARC). Please read this safety instruction guide carefully to ensure safe usage and proper handling of the product.

General Safety Guidelines

- Ensure the pouch is used only for its intended purpose as described in this guide.
- Regularly inspect the pouch for any signs of wear or damage before each use.
- Keep the pouch out of reach of children and vulnerable individuals.
- Follow all local laws and regulations regarding the use of breaching equipment.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The pouch is designed to carry explosive charges. Handle with care to avoid accidental discharge.
 - Ensure that the pouch is secured properly to the plate carrier to prevent accidental detachment during use.
- **Avoiding Hazards:**
 - Do not overload the pouch beyond its capacity to maintain secure handling.
 - Ensure that all items stored within the pouch are secured and will not fall out during movement.
 - Use the elastic loops and toggles as intended to prevent equipment from shifting or falling out.
- **Age Specific Warnings:**
 - This product is not intended for use by individuals under the age of 18 without adult supervision.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure the plate carrier is clean and free from debris.
 2. Align the Velcro attachment of the LUNCHBOX POUCH MK2 with the corresponding area on the bottom of the plate carrier.
 3. Press firmly to secure the Velcro attachment.
 4. Adjust the two elastic loops on the bottom of the pouch to hold any additional equipment, such as a tourniquet.
- **Usage:**
 - Load the pouch with breaching charges or other equipment as needed for your mission.
 - Utilize the 5 rows of elastic loops on the back side to secure multiple Interior Door Charges.
 - Use the half zip design to access contents without the risk of items falling out.
 - For additional organization, utilize the Velcro Insert Suite to customize the interior of the pouch.
 - After use, ensure the pouch is cleaned and stored in a dry place to maintain its integrity.

Disposal Instructions

- Dispose of the LUNCHBOX POUCH MK2 in accordance with local regulations regarding textile and equipment disposal.
- If the pouch is damaged or no longer needed, consider recycling options or contacting local waste management services for guidance.

Contact Information for Further Support

For any safety inquiries or further support regarding the LUNCHBOX POUCH MK2, please refer to the contact details provided by the retailer or manufacturer at the time of purchase.

Thank you for your attention to these safety guidelines. Your safety and the effective use of the LUNCHBOX POUCH MK2 are our top priorities.
