

LV-119 FRONT OVERT PLATE BAG - SPIRITUS SYSTEMS LV-119 FRONT OVERT PLATE BAG (MEDIUM) - WOLF GREY

[Home](#)

NOTE: The LV/119 O V E R T Front Plate Bag requires a Rear Bag and Cumberbund for proper operation. The LV/119 SYSTEM is a group of products that work together to give end-users the ability to scale their equipment to their current needs. The fact that this is a cohesive system means that users can mix and match accessories in most cases. For example: One could take a C O V E R T Front or Rear Plate bag and use it with an O V E R T Front and Rear Plate Bag. Users may also also cross pollinate cummerbunds, shoulder covers, and other parts that will be available. The SYSTEM encompasses many parts, some of which are currently available and some that are in development, such as Back Panels of various types, MOLLE cummerbunds, First Spear TUBES™ integrations, and different placards. The O V E R T shares the same profile as the C O V E R T plate bags but with modifications that make it more suitable for high profile operations. The front bag features a 3 Row / 4 Column MOLLE field that doubles as a 6" x 3" Velcro Field. This may be used to attach End User Devices (EUDs), such as those made by KAGWERKS or Juggernaut Defense. The Velcro may be used to mount placards, patches, and IR identifiers. The MOLLE can also be used to mount administrative pouches, frag grenade pouches, or anything else users may require quick need access to. Every front plate bag comes standard with sewn loops on the sides for attaching First Spear TUBES™ for use with our TUBES™ cummerbund. Placard and Chest Rig Integration. All LV/119 Plate Bags offer placard and chest rig integration via removable 1 Inch ITW NEXUS Buckles. These clips are removable, allowing users to reduce the signature of the plate bag if it is being worn under a cover shirt or being utilized in a low-profile role. Push To Talk Support. Each O V E R T front plate bag comes standard with a PTT/Porkchop Loop on either side. Communication Cable Routing. The Modern Warfighter and Law Enforcement Officer has a radio. To date, the majority of manufacturers have not taken end-user communications needs in to their design considerations - we endeavor to break that paradigm. The O V E R T front bag offers open shoulders to facilitate comms cable routing inside the plate bags and over the shoulders. It also offers small routing points by the 1 Inch ITW NEXUS buckles on the chest - easily accommodating PTT cable routing. Plate Fitment. The carrier was designed to fit United States Standard Issue SAPI cut plates, but it will fit other cuts as well as long as they fit within the specifications listed below. The bags were built to accommodate "thicker" plates, but they will not fit plates do not fall within the measurements listed. Medium -10" x 12.5" Large - 10.25" x 13.25" Extra Large- 11" x 14.00" Thickness - MAXIMUM of 1.20" NOTE: The LV119 Front Plate Bag is part of the LV119 Plate Carrier System. This item does not include a Rear Plate Bag, Cumberbund, Shoulder Covers, Placards, or any other accessories. Additional components are required for proper use. Some images shown with optional accessories, sold separately.

Safety Instruction Guide for the LV119 Front Overt Plate Bag

Introduction

Thank you for choosing the LV119 Front Overt Plate Bag from Spiritus Systems. This guide provides essential safety instructions and usage information to ensure your safe and effective use of the product. Please read this guide carefully before using the plate bag.

General Safety Guidelines

To ensure your safety and the longevity of the product, please adhere to the following guidelines:

- Ensure that the LV119 Front Overt Plate Bag is used in conjunction with a compatible Rear Bag and Cumberbund for proper operation.
- Regularly inspect the plate bag for signs of wear or damage before each use.
- Do not exceed the specified plate size and thickness limits to ensure a proper fit and safety.
- Keep the product out of reach of children and vulnerable individuals.
- Always follow the manufacturer's instructions for use and maintenance.
- If you encounter any issues or have questions regarding the product, contact the manufacturer for assistance.

Specific Safety Precautions for Use

When using the LV119 Front Overt Plate Bag, please consider the following safety precautions:

- **Compatibility:** Ensure that any accessories or components used with the plate bag are compatible with the LV119 system.
- **Weight Distribution:** Be mindful of the weight distribution when adding equipment to the MOLLE field, as uneven weight can affect mobility and balance.
- **Cable Routing:** Use the designated cable routing points to avoid snagging or damage to communication cables.
- **PTT Support:** Ensure that the Push To Talk (PTT) loop is correctly utilized to prevent accidental activation or damage.
- **Environmental Considerations:** Avoid exposing the plate bag to extreme temperatures, moisture, or harsh chemicals, as these can compromise the integrity of the materials.
- **Proper Fit:** Ensure the plate bag is properly adjusted and fitted to your body to minimize movement and enhance safety during use.

Instructions for Installation and Usage

To ensure the effective use of the LV119 Front Overt Plate Bag, please follow these installation and usage instructions:

1. Preparation:

- Gather all necessary components: LV119 Front Overt Plate Bag, Rear Bag, Cumberbund, and any additional accessories.
- Ensure that the area is clear and safe for installation.

2. Fitting the Plate Bag:

- Insert the appropriate SAPI cut plate into the front compartment of the plate bag.

- Ensure the plate fits within the specified dimensions:
 - Medium: 10" x 12.5"
 - Large: 10.25" x 13.25"
 - Extra Large: 11" x 14.00"
 - Thickness: MAXIMUM of 1.20"
- Secure the plate bag using the provided fasteners.

3. **Attaching the Cummerbund:**

- Connect the cummerbund to the plate bag using the sewn loops on the sides.
- Adjust the cummerbund for a snug fit while allowing for mobility.

4. **Adding Accessories:**

- Use the MOLLE field on the front bag to attach any desired accessories, ensuring they are securely fastened.
- Utilize the Velcro field for additional attachments such as placards or patches.

5. **Cable Management:**

- Route communication cables through the designated openings to maintain a clean and functional setup.
- Ensure that the cables do not interfere with movement or accessibility.

6. **Final Adjustments:**

- Once everything is attached, wear the plate bag and make any necessary adjustments for comfort and fit.
- Ensure that the bag does not obstruct your movement or visibility.

Disposal Instructions

When it comes time to dispose of the LV119 Front Overt Plate Bag, please follow these guidelines:

- **Environmental Responsibility:** Dispose of the bag in accordance with local waste management regulations.
- **Material Recycling:** If possible, separate materials for recycling (e.g., fabric, plastic components).
- **Safety Precautions:** Ensure that any hazardous materials are disposed of safely and in accordance with local laws.

Contact Information for Further Support

For any questions or concerns regarding the LV119 Front Overt Plate Bag, please refer to the manufacturer's contact information available on the product packaging or the manufacturer's website.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the LV119 Front Overt Plate Bag. Thank you for your attention to safety and for choosing Spiritus Systems.
