

FULL LENGTH SIZING DIES - FORSTER PRODUCTS, INC. 300 PRC

FULL LENGTH SIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. Forster Full Length Sizing Dies are each equipped with their E-Z Out Expander button which helps keep case necks concentric during the neck expanding operation. It's positioned higher in the neck area than most other dies. This provides support and holds the axis of the neck and case in alignment while the case is withdrawn from the die.

Safety Instruction Guide for Forster Full Length Sizing Die

Introduction

Thank you for choosing the Forster Full Length Sizing Die (300 PRC). This guide provides essential safety instructions and usage guidelines to ensure safe and effective operation of your reloading die. Please read this manual thoroughly before use.

General Safety Guidelines

- Ensure the die is used only for its intended purpose of resizing cartridge cases.
- Always wear appropriate safety gear, including eye protection and gloves, when handling reloading equipment.
- Keep the die and all reloading components out of reach of children and unauthorized users.
- Inspect the die for damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding reloading and ammunition.

Specific Safety Precautions for Use

- Avoid overtightening the die when installing it in your reloading press, as this can cause damage.
- Ensure that the die is properly adjusted to avoid excessive resizing, which can weaken the cases.
- Use only recommended lubricants to avoid contamination or damage to the die and cases.
- Be cautious when handling reloaded ammunition; ensure it is stored safely and securely.
- Always doublecheck the caliber and specifications of the die before use to prevent mistakes.

Instructions for Installation and Usage

1. Installation

- Ensure your reloading press is clean and free of debris.
- Carefully remove the Forster Full Length Sizing Die from its packaging.
- Screw the die into the press until it is snug but not overly tight.
- Adjust the die to the desired position according to your reloading specifications.

2. Usage

- Prepare your cartridge cases by cleaning and inspecting them for defects.
- Apply a thin layer of lubricant to the cases to facilitate smooth resizing.
- Insert a case into the die and operate the press to resize the case.
- Withdraw the case slowly and inspect it for proper resizing.
- Repeat the process for each case, ensuring consistent application of lubricant.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Recycle packaging materials where possible.
- Ensure that all reloaded ammunition that is no longer usable is disposed of safely.

Contact Information for Further Support
