

# FULL LENGTH SIZING AND BENCH REST SEATER DIE SETS - FORSTER PRODUCTS, INC. 6 GT FULL LENGTH BENCH REST DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Forster Bench Rest Reloading Dies are of excellent quality and provide the reloader with the ability to produce concentric rounds time and time again. Each die is manufactured from the finest quality steel carefully machined to very tight tolerances. Dies are hand polished both before and after the heat-treating process to guarantee an extra fine finish. All Forster reloading dies feature their Forster Cross Bolt Die Locking Ring that tightens the two ends of the split ring instead of tightening a screw directly into the threads of the die. A full length two die set is the die set beginning reloaders should start with, and the die set most hunters and many target shooters use every time they reload their cases. These Forster full length die sets include a full length sizing die and the Forster Bench Rest seater die. Forster full length sizers feature hand polishing and the E-Z case neck expander system - a Forster exclusive. NATIONAL MATCH DIES reduce headspace by .003" and are intended for bolt action target rifles only.

## Attributes

- Name: [FORSTER PRODUCTS, INC. 6 GT FULL LENGTH BENCH REST DIE SET](#)
- Manufacturer: [FORSTER PRODUCTS, INC.](#)
- Product no.: 430102687
- Mfr. No.: 4179
- Cartridge: 6 GT
- Diameter (in): 0.875
- Die Style: 2-Die Set
- Delivery weight: 0.646kg
- Shipping height: 54mm
- Shipping width: 133mm
- Shipping length: 219mm
- UPC: 757253990823

# Safety Instruction Guide for Forster Full Length Sizing and Bench Rest Seater Die Sets

## Introduction

Thank you for choosing the Forster Full Length Sizing and Bench Rest Seater Die Sets. This guide provides essential safety instructions and precautions to ensure the safe and effective use of your reloading equipment. Please read this guide carefully and keep it for future reference.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when reloading.
- Keep your work area clean and organized to prevent accidents.
- Store all reloading components, including dies and ammunition, out of reach of children and unauthorized individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check the EU's Safety Gate platform for recall updates on this product.

## Specific Safety Precautions for Use

- Always follow the manufacturer's instructions when using the die sets.
- Inspect the dies for any damage or wear before use. Do not use damaged equipment.
- Ensure that all components are compatible with your specific cartridge and reloading setup.
- Avoid overloading cases beyond the recommended specifications.
- Use the dies only for their intended purpose as described in the product documentation.
- Keep fingers and hands clear of moving parts during operation to prevent injury.
- Do not leave reloading equipment unattended while in use.

## Instructions for Installation and Usage

### Installation

1. **Prepare Your Workspace:** Ensure your workspace is clean and free from distractions.
2. **Gather Tools:** Have all necessary tools and components ready, including the die set, reloading press, and cartridges.
3. **Install the Sizing Die:**
  - Securely attach the sizing die to your reloading press according to the manufacturer's instructions.
  - Ensure the die is tightened properly to avoid movement during operation.
4. **Install the Seater Die:**
  - Attach the seater die in the same manner as the sizing die.
  - Confirm that the die is adjusted to the correct seating depth for your cartridges.

### Usage

1. **Sizing Process:**
  - Insert the brass case into the press and raise the ram to engage the sizing die.
  - Apply steady pressure until the case is fully sized, then lower the ram.
2. **Seating Process:**
  - Insert a bullet into the prepared case mouth.
  - Raise the ram to engage the seater die, applying pressure until the bullet is seated to the desired depth.
3. **Quality Control:**

- Regularly check the dimensions of your reloads to ensure they meet safety and performance standards.
- Inspect each round for defects before use.

## Disposal Instructions

- Dispose of any damaged or worn reloading components according to local regulations.
- Do not dispose of reloading materials in regular household waste. Check local guidelines for hazardous material disposal.
- Store any unused or excess components in a secure location until they can be properly disposed of.

## Contact Information for Further Support

For any safety inquiries or further assistance regarding the Forster Full Length Sizing and Bench Rest Seater Die Sets, please refer to the manufacturer's website or contact your local distributor.

By adhering to the safety guidelines and instructions outlined in this guide, you can ensure a safe and effective reloading experience with your Forster products. Thank you for prioritizing safety in your reloading practices.
