Introducing the Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365

What could be better than a SIG SAUER P365? How about a P365 with the Tyrant CNC IntelliFire™ dual safety blade action trigger, with a solid 90 degree break AND 30% less pre-travel/take up! The SIG SAUER P365 has made waves in the concealed carry world, revered for its compact size and powerful punch. Whether you're a seasoned professional or an everyday carrier, reliability is key. The Tyrant CNC IntelliFire™ Trigger System, specifically tailored for the P365, pushes the boundaries of what you can expect from aftermarket trigger enhancements. In the realm of firearm customization, the trigger plays a pivotal role, influencing both the firearm's performance and the safety of its operator. Although a capable and favored handgun, the Sig P365 lacks the traditionally-used safety feature; the trigger safety. Tyrant CNC, fully recognizing the importance and demand for additional safety features, crafted the IntelliFire™ Trigger System with aerospace-like precision, ensuring it integrates seamlessly with the SIG SAUER P365. Crafted for Durability and Precision Built to withstand the daily rigors of use and ensure peak performance, the trigger boasts a robust 12L14 steel body. Lightweight 6061 aluminum safety blades further accentuate its durability and precision. A Stainless steel and heat-treated internal spring ensures reliability of use that will outlive the firearms duty cycle. Safety First: A Dual Safety Blade System Safety in firearms is non-negotiable. The standout feature of this trigger is its patent-pending dual safety blade system. The OEM Grip module of the P365 offers only a narrow window of clearance, making traditional safety blade designs impossible to function. This is where the genius of Tyrant CNC shines. Through innovative geometry and a specialized spring, the IntelliFire™ safety blade system utilizes a 3:1 lever ratio in order to clear the grip module when activated. However, if the front blade remains undepressed, the rear blade will directly impact the 365 Grip Module preventing the firing pin from dropping and enhancing safety. Reduced Pre-Travel & Hybrid Ergonomics The trigger facilitates a 30% reduction in pre-travel, ensuring a smoother and quicker shooting experience without compromising on safety. Further enhancing the user experience, Tyrant CNC incorporates its signature hybrid trigger ergonomics, featuring a flat face with a subtle bottom curve – the ideal blend for optimal performance. Experience a consistent break at the 90 degree angle, making your initial AND follow up shots the closest groupings you can have. With the Tyrant CNC IntelliFire™ Trigger System, you're investing in unmatched engineering and an unwavering focus on safety. Elevate your confidence in daily or concealed carry, especially for those favoring appendix carry, and arm your SIG SAUER P365 with cutting-edge trigger technology.

**FEATURES** Platform: Sig-Sauer Designed For Models: P365 Fitment Notes Works with standard SIG SAUER P365 variants Drop in replacement Works with Aftermarket Grip Modules \*May not be compatible with California Compliant P365 models with manual magazine disconnect feature installed\* First ever trigger safety system for SIG P365, patent-pending technology 30% reduced trigger pre-travel (maximum that can be done without disengaging SIG internal safety) 90 degree break for maximum consistency on initial AND follow-up shots Stainless steel trigger body, aluminum safety blades

## Attributes

- Name: [TYRANT CNC INTELLIFIRE TRIGGER FOR SIG SAUER P365 BLACK W/GOLD BLADES](#)
- Manufacturer: [TYRANT CNC](#)
- Product no.: 430109509
- Mfr. No.: TD-P365-TRIG-BLACK-GOLD
- Finish: Black
- Model: P365
- Style: Replacement,Drop-In
- Weapon type: Sig Sauer
- Delivery weight: 0.018kg
- Shipping height: 102mm
- Shipping width: 6mm
- Shipping length: 114mm
- UPC: 612789319244

## Item details

Made in USA

US export classification: 0A501.c

# Safety Instruction Guide for Tyrant CNC IntelliFire™ Trigger System for SIG SAUER P365

## Introduction

Thank you for choosing the Tyrant CNC IntelliFire™ Trigger System for your SIG SAUER P365. This guide provides essential safety instructions and information to ensure the safe use of this product. Please read and understand these guidelines thoroughly before installation and usage.

## General Safety Guidelines

- **Product Safety:** The Tyrant CNC IntelliFire™ Trigger System is designed to enhance the performance of your firearm while ensuring safety during operation.
- **Potential Hazards:** Improper installation or usage of the trigger system can lead to accidental discharge or firearm malfunction.
- **User Responsibility:** It is the user's responsibility to ensure that the firearm is handled safely and in accordance with local laws and regulations.
- **Age Restrictions:** This product is intended for adult users only. Individuals under the age of 18 should not handle firearms or firearm accessories without direct supervision from a responsible adult.
- **Online Shopping:** Ensure that you purchase this product from authorized retailers to guarantee compliance with safety standards.

## Specific Safety Precautions for Use

- **Always treat your firearm as if it is loaded:** This fundamental principle of firearm safety must be observed at all times.
- **Ensure the firearm is pointed in a safe direction:** Always point the muzzle away from yourself and others.
- **Use proper eye and ear protection:** When testing or using your firearm, always wear appropriate safety gear.
- **Check for obstructions:** Before using the firearm, ensure that the barrel and chamber are free of obstructions.
- **Follow all manufacturer instructions:** Adhere strictly to the installation and usage instructions provided in this guide.
- **Do not modify the trigger system:** Any unauthorized modifications may compromise safety and void the warranty.
- **Store firearms securely:** Always store your firearm in a secure location, out of reach of unauthorized individuals, especially children.

## Instructions for Installation and Usage

### Installation Instructions

1. **Read the Manual:** Before beginning installation, read through the entire manual to familiarize yourself with the process.
2. **Ensure Safety:** Ensure that the firearm is unloaded and pointed in a safe direction throughout the installation process.
3. **Gather Tools:** Have the necessary tools ready, including a screwdriver and any specific tools recommended by the manufacturer.
4. **Remove the Old Trigger:**
  - Follow the specific instructions provided by SIG SAUER for removing the existing trigger system.
5. **Install the IntelliFire™ Trigger:**
  - Align the Tyrant CNC IntelliFire™ Trigger with the designated slots in the firearm.

- Secure the trigger in place according to the manufacturer's instructions.
6. **Test the Trigger:** After installation, conduct a function check to ensure proper operation before using the firearm.

## Usage Instructions

- **Practice Safe Handling:** Always follow the basic rules of firearm safety during use.
- **Regular Maintenance:** Regularly inspect the trigger system and firearm for signs of wear or damage.
- **Function Check:** Perform a function check each time before use to ensure the trigger operates correctly.
- **Educate Yourself:** If you are unfamiliar with firearms, seek instruction from a qualified professional before use.

## Disposal Instructions

- **Dispose of Safely:** When it is time to dispose of the trigger system, do so in accordance with local regulations regarding hazardous materials and firearm components.
- **Contact Local Authorities:** For guidance on proper disposal methods, contact local law enforcement or waste management authorities.

## Contact Information for Further Support

For any inquiries or concerns regarding the Tyrant CNC IntelliFire™ Trigger System, please refer to the contact information provided by the retailer or manufacturer where the product was purchased. They will assist you with any safety concerns or product support you may require.

## Conclusion

By following these safety instructions and guidelines, you will ensure the safe and effective use of the Tyrant CNC IntelliFire™ Trigger System for your SIG SAUER P365. Always prioritize safety and responsible handling of your firearm. Thank you for your attention to these important safety measures.
