

ENHANCED GEN 2 BUFFER TUBE RATCHET LOCK NUT END PLATE

MIL-SPEC - ENHANCED GEN 2 BUFFER TUBE RATCHET LOCK NUT END PLATE

Impact extruded from 7075, the PWS EBT is optimized for strength and rigidity while creating a solid platform for the new lightened design. Anodized in Mil spec type 3 to exceed standards in hardness and corrosion protection. The new Ratchet-Lock Design eliminates the need for staking the castle nut and gives a rock solid lock up while being able to remove it easily if needed in the future. Additional lightening cuts reducing weight in conjunction with the new attachment design net nearly a 1oz weight reduction from already efficient mil spec buffer tube design. The anti-tilt lip enhances function and reliability, giving longer life to piston driven weapons by allowing the carrier to start in the buffer tube rather than transitioning into the tube on extraction.

Attributes

- Name: ENHANCED GEN 2 BUFFER TUBE RATCHET LOCK NUT END PLATE
- Manufacturer: PRIMARY WEAPONS
- Product no.: 430113169
- Mfr. No.: EBT-RLCN-KIT
- Make: AR .308,AR-15
- Style: Mil-Spec
- Delivery weight: 0.186kg
- Shipping height: 25mm
- Shipping width: 152mm
- Shipping length: 267mm
- UPC: 811154033611

Item details

Made in USA

US export classification: 0A501.x

Enhanced Gen 2 Buffer Tube Ratchet Lock Nut End Plate Safety Instruction Guide

Introduction

Thank you for choosing the Enhanced Gen 2 Buffer Tube Ratchet Lock Nut End Plate. This product is designed to provide strength and reliability for your firearm. To ensure your safety and the optimal performance of the product, please read this safety instruction guide carefully.

General Safety Guidelines

- Always ensure that the product is installed correctly according to the provided instructions.
- Regularly inspect the product for any signs of wear or damage.
- Do not use the product if it shows any signs of defects.
- Keep this product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or adjusting the buffer tube.
- Use appropriate tools when installing the buffer tube to prevent injury.
- Avoid overtightening the ratchet lock nut, as this may cause damage to the product or the firearm.
- Do not modify the product in any way, as this can compromise safety and performance.
- If you experience any difficulties during installation or usage, seek assistance from a qualified professional.

Instructions for Installation and Usage

1. Preparation

- Ensure that the firearm is completely unloaded.
- Gather necessary tools, including a wrench and any other required equipment.

2. Installation Steps

- Align the buffer tube with the receiver of the firearm.
- Insert the buffer tube into the receiver until it is fully seated.
- Attach the ratchet lock nut to secure the buffer tube in place.
- Use a wrench to tighten the ratchet lock nut. Ensure it is secure but do not overtighten.
- Check the alignment of the buffer tube and make any necessary adjustments.

3. Usage Instructions

- After installation, perform a function check on the firearm to ensure everything operates correctly.
- Regularly inspect the buffer tube and lock nut for any signs of wear or damage.
- If the product needs to be removed or adjusted, ensure the firearm is unloaded before proceeding.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the Enhanced Gen 2 Buffer Tube Ratchet Lock Nut End Plate, please refer to the manufacturer's contact information or consult a qualified professional.
