## Soft, Genuine Sorbothane~

These pads don't just slow recoil down, they actually cut the kick dramatically by absorbing it! Made from soft, springy, Sorbothane, they end next-day-hurt, tame large caliber flinch and allow recoil-sensitive shooters to shoot in comfort. Won't ever bottom out. Grind and shape like regular pads, just don't allow heat to build up. 200 Series Dual Action Sporting Clays pad has two layers of Sorbothane for extra protection. The first layer reacts quickly to absorb initial recoil, while the second layer dissipates the remaining energy to maximize absorption. Heel is canted approximately 45° for easy shouldering from the "low gun" position. 300 Series All Purpose has a slightly concave face designed for all shooting applications. 300 Series Dual Action All Purpose pad combines the two-layer absorption properties of the 200 Series Dual Action pads with a flat back and downward-canted ends for easy shouldering in a wide variety shooting applications. 400 Series Trap has a more pronounced concave face than 300 Series for fixed-position trapshooting. 500 Series Magnum is designed for heavy recoiling guns and has a flat face and downward canted ends for easy shouldering. All pads feature solid sides, a black base, and leather-grain textured face.

# Safety Instruction Guide for RECOIL PAD KICKEEZ MEDIUM 15/16" TRAP PAD, BLACK

## Introduction

Thank you for choosing the RECOIL PAD KICKEEZ MEDIUM 15/16" TRAP PAD, BLACK. This product is designed to enhance your shooting experience by reducing recoil and improving comfort. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always ensure that the recoil pad is properly installed on your firearm before use.
- Inspect the recoil pad for any signs of damage or wear before each use. Do not use if damaged.
- Keep the recoil pad out of reach of children and vulnerable individuals when not in use.
- Use the recoil pad only for its intended purpose as described in this guide.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before installing or adjusting the recoil pad.
- Avoid exposing the recoil pad to extreme temperatures or direct sunlight, as this may affect its performance.
- Do not modify the recoil pad in any way that could compromise its safety features.
- If you experience discomfort or pain while using the recoil pad, discontinue use immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove any existing recoil pad from the firearm, if applicable.
- Align the KICKEEZ recoil pad with the stock of your firearm.
- Secure the recoil pad using the appropriate screws or fasteners, ensuring it is tightly fitted.
- Confirm that the pad is stable and does not move when pressure is applied.

### 2. Usage:

- Position the firearm comfortably against your shoulder, ensuring that the recoil pad is in contact with your shoulder.
- Maintain a proper shooting stance to maximize the effectiveness of the recoil pad.
- After shooting, inspect the recoil pad for any signs of wear or damage.

## Disposal Instructions

- Dispose of the recoil pad in accordance with local regulations regarding polymer materials.
- Do not incinerate the recoil pad, as it may release harmful substances when burned.
- If the recoil pad is damaged beyond use, consider recycling it if possible.
