Instructions for Installation and Usage

1. Preparation:

- Ensure the surfaces to be bonded are clean, dry, and free from grease or dust.
- Use a suitable solvent to clean the surfaces if necessary.

2. Application:

- Shake the bottle well before use.
- Apply a thin, even layer of the adhesive to one of the surfaces to be bonded.
- Press the surfaces together firmly.

3. Curing:

- Allow the adhesive to harden for at least four hours for initial set.
- Full strength is achieved in approximately ten hours.

4. PostApplication:

- Do not disturb the bonded surfaces during the curing process.
- After curing, check the bond strength before subjecting the assembly to stress.

Disposal Instructions

- Dispose of any unused product in accordance with local regulations.
- Do not pour down drains or dispose of in household waste.
- Empty containers should be recycled or disposed of as per local guidelines.
