

SINCLAIR NYLON RIFLE BRUSH - SINCLAIR INTERNATIONAL NYLON RIFLE BORE BRUSH, 375 CALIBER, 8-32M

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Sinclair nylon bore brushes are manufactured significantly larger than bore diameter to fit your barrel properly and have a closed loop on the end. Many other brushes are undersized and don't do an adequate job of scrubbing the barrel. Our nylon bore brushes have extremely stiff, heavy bristles which provide excellent scrubbing action in your rifle's bore. Ammonia and oil based cleaners will not "eat" or dissolve these bristles as they do bronze brushes. The nylon pistol brushes are about 1" shorter than the rifle brushes. Brushes except 17 caliber and 20 caliber are standard 8-32 male thread.

Attributes

- Name: [SINCLAIR INTERNATIONAL NYLON RIFLE BORE BRUSH, 375 CALIBER, 8-32M](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749000106

Safety Instruction Guide for SINCLAIR NYLON RIFLE BRUSH

Introduction

Thank you for choosing the SINCLAIR NYLON RIFLE BRUSH. This guide provides important safety instructions and usage guidelines to ensure your safety and the effective performance of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is cleaning rifle barrels.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the brush for any signs of wear or damage before use. Discontinue use if any issues are detected.
- Do not use the brush on any surfaces other than the intended bore of a rifle.
- Always store the brush in a dry place to prevent damage.

Specific Safety Precautions for Use

- Use the brush with caution to avoid injury. The bristles are stiff and can cause scratches or abrasions if used improperly.
- Do not apply excessive force while scrubbing the bore, as this may damage both the brush and the rifle barrel.
- When using ammonia or oilbased cleaners, ensure that they are compatible with nylon brushes to prevent degradation.
- Avoid using the brush on hot surfaces or immediately after firing the rifle, as this may pose a burn risk.

Instructions for Installation and Usage

1. Preparation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Gather your cleaning supplies, including the SINCLAIR NYLON RIFLE BRUSH and your preferred cleaning solvent.

2. Installation:

- The brush features a standard 832 male thread, making it compatible with most cleaning rods.
- Screw the brush securely onto the cleaning rod until it is firmly attached.

3. Usage:

- Apply a small amount of cleaning solvent to the bristles of the brush.
- Insert the brush into the rifle bore gently, ensuring that it fits snugly.
- Move the brush back and forth through the bore using a smooth, controlled motion.
- After scrubbing, remove the brush and clean the bore with a patch or cloth to remove any debris.

4. PostUsage:

- Clean the brush after each use by rinsing it under warm water to remove any residue.
- Allow the brush to dry completely before storing it.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- If the brush is damaged or worn beyond use, it should be discarded in a manner that prevents harm to the environment.

Conclusion

By following these safety instructions and precautions, you can ensure a safe and effective cleaning experience with your SINCLAIR NYLON RIFLE BRUSH. Always prioritize safety and proper usage to maintain the integrity of your firearm and the performance of the cleaning tool. Thank you for your attention to these important guidelines.
