Safety Instruction Guide for DIE BODY LOCK RING

Introduction

Thank you for choosing the DIE BODY LOCK RING. This product is designed for use with 7/8"14 dies from various manufacturers. It is important to follow all safety instructions to ensure safe and effective use. This guide provides essential safety information, installation instructions, and disposal guidelines in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Inspect the DIE BODY LOCK RING for any visible damage before use. Do not use if damaged.
- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Keep this product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use protective eyewear while handling and installing the lock ring to protect against debris.
- Ensure that the work area is clean and free from distractions to avoid accidents.
- Do not exceed the recommended torque specifications for installation as this may cause damage or failure.
- Avoid using excessive force when tightening the lock ring to prevent stripping the threads.
- Store the lock ring in a dry place to prevent rust and corrosion, especially if it is made of steel.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a wrench suitable for the lock ring.
- Ensure that the die you are using is compatible with the DIE BODY LOCK RING.

2. Installation:

- Clean the threads of the die and the lock ring to ensure a proper fit.
- Align the lock ring with the threads of the die and handtighten it to secure it in place.
- Use a wrench to tighten the lock ring further, ensuring it is snug but not overtightened.

3. Usage:

- Once installed, check that the lock ring is secure before using the die.
- Monitor the lock ring during use to ensure it remains tight and secure.

4. PostUse:

- After use, remove the lock ring carefully and inspect it for any signs of wear or damage.
- Clean the lock ring and store it properly to maintain its condition.

Disposal Instructions

- Dispose of the DIE BODY LOCK RING in accordance with local regulations regarding metal products.
- Do not dispose of the product in household waste. Instead, consider recycling options if available.

- Ensure that any damaged or unusable components are disposed of safely to prevent accidents.

Contact Information for Further Support

For any inquiries regarding safety or product information, please contact the manufacturer or authorized retailer. Always refer to the product packaging or documentation for specific contact details.

By following these safety instructions, you can ensure that your experience with the DIE BODY LOCK RING is safe and effective. Thank you for your attention to these important guidelines.
