

HEAVY DUTY POLY LOADING BLOCKS - SINCLAIR INTERNATIONAL

223 FAMILY HEAVY-DUTY LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

These blocks are machined from solid white polyethylene providing the reloader with a very durable, easy to clean loading block. Each block is machined to fit the specific cases you reload and has finger grooves machined into the sides to provide a sure grip. Each hole has a slight chamfer for easy case head entry. The "Poly" blocks are dishwasher safe for easy cleaning. We use white polyethylene because spilled powder shows up easily. These 50 round blocks are 1" thick to provide deeper holes for your cases to sit in, great for medium and long length cartridges. The #749-001-844 block only has 32 holes due to the case head size.

Attributes

- Name: [SINCLAIR INTERNATIONAL 223 FAMILY HEAVY-DUTY LOADING BLOCK](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)

HEAVY DUTY POLY LOADING BLOCKS Safety Instruction Guide

Introduction

Thank you for choosing the HEAVY DUTY POLY LOADING BLOCKS from SINCLAIR INTERNATIONAL. This loading block is designed to provide a durable and efficient solution for your reloading needs. To ensure your safety and the proper use of this product, please read the following safety guidelines carefully.

General Safety Guidelines

- Ensure that the loading block is used only for its intended purpose.
- Keep the loading block out of reach of children and vulnerable individuals.
- Regularly inspect the loading block for any signs of wear or damage.
- Always handle reloading components with care to avoid accidents.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the loading block in a wellventilated area to minimize exposure to any dust or particles.
- Avoid using the loading block near open flames or heat sources.
- Do not overload the loading block beyond its capacity of 50 rounds.
- Ensure that the cases being used are compatible with the loading block's specifications.
- Use protective eyewear when reloading to shield against any potential debris.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your workspace is clean and organized before starting.
- Gather all necessary reloading components and tools.

2. Loading Process:

- Place the loading block on a stable and flat surface.
- Begin inserting the cases into the holes of the loading block. Each hole is designed for specific cartridges:
 - 223 Remington
 - 204 Ruger
 - 5.56 mm NATO
 - 300 AAC Blackout
 - 221 Remington Fireball
 - 222 Remington
 - 17 Remington
 - 222 Remington Mag
 - 17 Remington Fireball
- Ensure that the case heads are properly seated in the holes, utilizing the slight chamfer for easy entry.

3. PostUse Care:

- After reloading, remove the cases from the loading block.
- Clean the loading block with a damp cloth or place it in a dishwasher for thorough cleaning.

- Store the loading block in a cool, dry place when not in use.

Disposal Instructions

- When disposing of the loading block, follow local regulations for plastic disposal.
- If the loading block is damaged or no longer usable, consider recycling it if possible.
- Do not dispose of the loading block in regular household waste.

Contact Information for Further Support

For any safety inquiries or further support regarding the HEAVY DUTY POLY LOADING BLOCKS, please refer to the contact information provided on the packaging or product insert.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective reloading experience.
