

NECK SIZING BUSHINGS - L.E. WILSON STEEL NECK SIZER DIE BUSHING .333

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Hardened stainless steel neck bushing from L.E. Wilson. Wilson makes their bushings in .001" increments. The size marked on them refers to the middle of the bushing, which is reamed with a .003" taper. Since the case neck only reaches the middle, a slightly tighter sizing can be achieved by turning the bushing over, with the markings facing toward the case (markings facing down). This is mainly an emergency step to be taken if the brass has hardened, springing back more, and will no longer hold the bullet; or for fine-tuning the sizing to provide less additional "squeeze" than using the next smaller bushing in the normal way. Made to similar specs to the Redding neck bushings. Will not interchange with Forster or RCBS dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [L.E. WILSON STEEL NECK SIZER DIE BUSHING .333](#)
- Manufacturer: [L.E. WILSON](#)
- Product no.: 749002453
- Mfr. No.: B-333
- Diameter (in): .333
- Delivery weight: 0.032kg
- Shipping width: 57mm
- Shipping length: 89mm
- UPC: 815145025234

NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .333 Safety Instructions

Introduction

Thank you for choosing the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .333. This product is designed to provide precision neck sizing for your reloading needs. To ensure your safety and the effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of the neck sizing bushing by following all instructions.
- Be aware of potential risks associated with improper use, including damage to your equipment or injury.
- Regularly check for updates on product recalls and safety information through the EU Safety Gate platform.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Ensure that the work area is clean, dry, and free from distractions to avoid accidents.
- Do not exceed the recommended sizing specifications for your cases, as this may lead to dangerous situations.
- Handle the neck sizing bushings with care to avoid any sharp edges that could cause injury.
- Keep the product out of reach of children and vulnerable individuals.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure your reloading die is clean and free of debris before installation.
- Insert the chosen neck sizing bushing into the die according to the manufacturer's instructions.
- Secure the bushing to ensure it does not move during the sizing process.

3. Usage:

- Insert the cartridge case into the die with the neck facing down.
- If necessary, turn the bushing over with the markings facing down for tighter sizing.
- Squeeze the press handle smoothly to size the neck of the cartridge.
- Inspect the sized neck for proper fit and tension before proceeding to load the bullet.

4. PostUse:

- Clean the neck sizing bushing after use to maintain its condition.
- Store the bushing in a safe place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn bushings according to local regulations.
- Do not dispose of the product in regular household waste. Check with local recycling guidelines for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the NECK SIZING BUSHINGS L.E. WILSON STEEL NECK SIZER DIE BUSHING .333, please refer to the manufacturer's website or contact their support team for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your neck sizing bushing. Thank you for your attention to safety.
